

JCT STANDARD BUILDING CONTRACT 2016 CHANGES

On 31 October 2016 the JCT published a new edition of its Standard Building Contract with the changes listed below. The update including new definitions and The Construction Design and Management Regulations (CDM) are now incorporated into the construction contract.

1. PAYMENT PROVISIONS (SIMPLIFIED):

- Combined Payment Notice and Pay Less Notice and final dates for payment.
- Interim valuation dates which apply throughout the construction period and the rectification period payments now will be every month rather than every two months.
- 14-day period applies to both the period of time between the due date and the final date for payment for interim and final payments.
- New procedure for prompt assessment within 28 days by the employer of loss and expense claims and 14 days from each subsequent monthly update from the Contractor.
- Fluctuations Options A, B and C were made more flexible and are set out and selected in the Contract Particulars. Options B and C are no longer attached to the contract but are still available to use from the JCT website and the contract now allows for an alternative bespoke cost adjustment formula.

2. EXISTING STRUCTURE AND INSURANCE

A new insurance Option C available to permit alternative solutions to the problems and allows the parties to set out their own bespoke insurance arrangements.

It is also optional to include an optional product liability insurance instead of professional indemnity insurance (the required type is to be specified in the Subcontract Particulars).

3. INTERIM VALUATION DATE (IVD)

Introduced in all editions to permit an option to specify it prior to the commencement of work on site (must be specified in the Contract Particulars regardless of A or B option applies).

The due date for payment is 7 days after the IVD, or if the contractor's interim payment application is submitted later than the IVD, 7 days after the employer's receipt of the interim payment application.

Construction Insurance and UK Construction Contracts Roger ter Haar, Anna Laney, Marshall Levine, 2016-05-20
Construction Insurance and UK Construction Contracts has long been the premier text for legal professionals looking for a combined analysis of construction contracts and their relation to insurance law In a new and updated third edition this book continues to provide in depth commentary and pragmatic advice on all the most important regulations and policies surrounding contracts and insurance in the construction industry Including brand new chapters on reinsurance and energy products this book covers subjects such as Minor intermediate and major project construction contracts Classes of insurance contract The role of insurance brokers Risks in construction and legal liability Professional indemnity insurance and directors and officers liability insurance Bonds and insurance Latent defect insurance Property insurance Health and Safety and Construction Regulations Contract Insurance FIDIC JCT and NEC 3 regulations PFI PPP projects in the UK Dispute resolution This book is a vital reference tool and practical guide for lawyers and in house counsels involved in the construction industry as well as project managers quantity surveyors construction contractors architects and engineers needing advice from an experienced legal perspective The JCT Standard Building Contract 2011 David Chappell, 2014-01-08 Books about construction contracts tend to be dense and wordy but what most architects quantity surveyors project managers builders and employers are looking for is an easily navigable simple guide to using a contract written in plain language The JCT Standard Building Contract 2011 is an uncomplicated book about a complex and commonly used contract It straightforwardly and concisely sets out exactly what the contract requires in various circumstances as far as possible without legal jargon and without assuming any particular legal or contractual expertise from the reader It explains often from first principles exactly what is meant by a contract and why certain clauses such as extension of time clauses or liquidated damages clauses are present and more importantly what they mean The book is divided into many chapters each with many sub headings to make it easy to read and to help readers to find relevant explanations quickly Tables and flowcharts are used to ensure clarity and most chapters include a section dealing with common problems Covers the recently issued JCT Standard Building Contract 2011 Straightforward concise and as far as possible free of legal jargon Sets out exactly what the contract requires in various circumstances Includes many tables and flowcharts to ensure clarity MacRoberts on Scottish Construction Contracts MacRoberts, 2014-11-17 Provides a guide to the general principles of Scottish law relevant to construction contracts and the main provisions of the standard forms of construction contract used in Scotland including the obligations of employers and contractors certification payment ending a construction contract remedies subcontracts collateral warranties insurance dispute resolution regulatory matters The new edition has been substantially updated and expanded to take account of the latest editions of the Scottish Standard Building Contracts and recent case law Specific updates have been driven by the following changes to legislation and standard contracts Local Democracy Economic Development and

Construction Act 2009 and the relative Scheme for Construction Contracts Arbitration Scotland Act 2010 Recognising the significant increase in use of NEC3 standard forms of contract references to NEC3 provisions have been introduced throughout the relevant chapters so that each now covers the common law the SBCC provisions and the NEC3 provisions It also features new chapters on litigation competition the Bribery Act 2010 and guarantees and bonds From reviews of previous editions very approachable and readable I would particularly recommend this book to non legal construction professionals Construction Engineering Law an informative textbook for the practitioner a significant contribution to knowledge Arbitration a highly competent textbook which would be of value for industry professionals with no legal background Construction Law

Residential Construction Law Philip Britton,Matthew Bell,Deirdre Ní Fhloinn,Kim Vernau,2025-09-18 This new edition tells you all you need to know about how construction defects in homes occur how they might be prevented and how they might be cured Her Honour Frances Kirkham CBE Atkin Chambers The first edition of Residential Construction Law in 2021 offered the only systematic and analytical overview of the legal framework for residential construction Since then there have been significant legislative and caselaw developments across the UK Aotearoa New Zealand Australia and Ireland In this second edition the authors and their team of specialist contributors have completely revised the content taking these changes into account This new edition refers to more than 350 new cases along with ground breaking reforms like the UK s Building Safety Act 2022 and lessons from the September 2024 Phase 2 report of the Grenfell Tower Inquiry The book also anticipates planned reforms including sweeping changes in several Australian states The revised edition retains the book s highly accessible structure and readability making it an indispensable guide for lawyers industry professionals and homeowners seeking to come to grips with the principles of residential construction law It also provides an essential starting point for students and practitioners needing to understand the detail of this specialist area It provides clear statements of the relevant law explaining aided by case studies diagrams text tables and a glossary the law s intended policy outcomes and techniques It also provides a critical view of areas where those goals have not been attained requiring further reform Accompanying online resources for this title can be found at bloomsbury pub residential construction law

The Architect in Practice David Chappell,Michael H. Dunn,2016-01-26 Throughout its many editions The Architect in Practice has remained a leading textbook used in the education of architects While the content of the book has developed the message and philosophy has remained constant to provide students of architecture and young practitioners with a readable guide to the profession outlining an architect s duties to their client and contractor the key aspects of running a building contract and the essentials of management finance and drawing office procedure The eleventh edition follows in that tradition The text has been brought up to date to ensure it follows the new RIBA Plan of Work 2013 as the guide to the architect s workflow In addition a number of changes to standard forms of contract were made with the publication of the JCT 2011 suite of contracts and the RIBA Standard Form for the Appointment of an Architect 2010 2012

Revision These new forms are fully covered In addition the opportunity has been taken to reorganise the layout so that the content flows in a way that is more consistent with current architectural practice and to deal with the increasing use of BIM The eleventh edition of *The Architect in Practice* continues to provide the guidance and advice all students and practising architects need in the course of their studies and in their profession
