Biological Invasions in South Africa Brian W. van Wilgen, John Measey, David M. Richardson, John R. Wilson, Tsungai A. Zengeya, 2020-03-10 This open access volume presents a comprehensive account of all aspects of biological invasions in South Africa where research has been conducted over more than three decades and where bold initiatives have been implemented in attempts to control invasions and to reduce their ecological economic and social effects It covers a broad range of themes including history policy development and implementation the status of invasions of animals and plants in terrestrial marine and freshwater environments the development of a robust ecological theory around biological invasions the effectiveness of management interventions and scenarios for the future The South African situation stands out because of the remarkable diversity of the country and the wide range of problems encountered in its varied ecosystems which has resulted in a disproportionate investment into both research and management The South African experience holds many lessons for other parts of the world and this book should be of immense value to researchers students managers and policy makers who deal with biological invasions and ecosystem management and conservation in most other regions *The Mathematics Education for the Future Project. Proceedings of the 13th International Conference Mathematics Education in a Connected World* Alan Rogerson, 2015-07-01 This volume contains the papers presented at the International Conference on Mathematics Education in a Connected World held from September 16 21 2015 in Catania Italy The Conference was organized by The Mathematics Education for the Future Project an international educational project founded in 1986 **Handbook of Youth Economy** Mohamed Buheji, 2018-03-17 Understanding Youth Economy is becoming an essential need that is to be addressed on the level of organisations communities and countries due to the speed of technology that increased the generations gap This new concept helps to illustrate ways for capitalizing on the youth potentials that would create a more stable socio economy This first comprehensive Handbook of Youth Economy reviews all the sources and perspectives that set together a youth driven economy that is explained in five main parts The handbook covers how to capture create and sustain youth economy It is an innovative work that present areas for deeper exploration to decision makers economist educators researchers practitioners academics social change advocates and youth development mentors Besides it would be an eye opener for those who carry youth energy and spirit whatever their age or profession is This work brings in exciting curious studies that would clarify the influence of youth in different economies Practically the book covers the enablers followed by the motivators and the obstacles that might face any youth economy initiatives All chapters present examples and stories that bring in solutions for better youth engagement while dealing with the youth psychology and exploring the different learning needs and styles that impact social development The role of app generation gamification and artificial intelligence are analysed along with current and coming youth business models to show practically how would they change the way we live survive earn and thrive **Liberating Learning** Santiago Rincón-Gallardo, 2019-03-05 This book is about three

complementary ideas 1 learning is a practice of freedom 2 liberating learning in public education requires widespread cultural change in classrooms schools and entire education systems and 3 social movements have been the most powerful vehicles for widespread cultural change and in their logic of operation lie the keys to liberate learning Drawing on existing knowledge and new research on educational change the author offers nine principles of action to liberate learning in schools and across entire educational systems Topics discussed include learning pedagogy leadership education policy widespread cultural change collective action and whole system improvement Written for educators and leaders interested in transforming teaching and learning in classrooms and schools as well as for public intellectuals and people interested in widespread pedagogical change the book articulates a new way to think about and pursue educational change **Minerals Yearbook** ,2011 **Military Weapons and Environment** Wing Commander (Dr) Umesh Chandra Jha,2017-10-15 Armed conflicts have become more complicated with the emphasis shifting towards new weapons such as drones cybercrime and autonomous weapons In July 2017 the UN General Assembly adopted the Treaty on the Prohibition of Nuclear Weapons This treaty prohibits a full range of nuclear weapon related activities such as undertaking to develop test produce manufacture acquire possess or stockpile nuclear weapons or other nuclear explosive devices as well as the use or threat of use of these weapons The ongoing conflicts have shown that the consequences of the use of explosive weapons are not limited to death physical injury and disability but also include long term impacts on mental well being The use of improvised weapons by States and non State actors is an area of concern for the environment Every State must therefore ensure that weapons used by their armed forces are explicitly adjudged under International Humanitarian Law IHL and Human Rights Law While reviewing a new weapon the States must adopt multilateral approaches drawing upon relevant legal health environmental and military expertise This book describes the environmental effects of eight weapons and explosive remnants of war that have caused extensive environmental harm in the recent past It also makes specific recommendations addressed to the international community and the States for protecting the natural environment from the impact of weapons of war This book will contribute towards a better understanding of the environmental harm caused by military weapons Weapons of War: Environmental Impact ,2013-08-15 The Indian Air Force from a humble beginning in 1932 with 4 Wapiti aircraft six Indian officers and 22 hawai sepoy have traversed a long journey of eighty one years and crossed noteworthy milestones to become the fourth largest air force in the world While facing several limitations challenges IAF have met all the national defence requirements and made several strategic contributions With growing economic interests and national aspirations expanding interests well beyond our territorial boundaries and prevailing internal security challenges India s national defence requirements are also increasing The first Gulf War was a monumental turning point in the war time employment of aerospace power Ever since significance of aerospace power in war crisis and peace time has been gaining ascendancy Kosovo and Libya are the two pertinent examples of the allies virtually relying on aerospace power without committing any

soldiers on the ground Scrutiny of the emerging global and national trends suggests that employment of the aerospace assets as well as nation s expectation from the IAF will continue to rise Alongside there is an unplanned fall in flying platforms weapon systems and pilot strength of the IAF This study is an attempt to analyse the history of the IAF in war as well as other than war operations to appreciate the emerging trends in geopolitics aerospace technology and doctrine and to identify the likely challenges IAF would be facing in the next two decades and beyond Road map for transformation of the national security framework indigenous aerospace industry and the IAF has also been suggested Normal Instructor and Teachers
