**Leo Tolstoy** Daniel Moulin, 2014-10-23 How do we know what we should teach And how should we go about teaching it These deceptively simple questions about education perplexed Tolstoy Before writing his famous novels War and Peace and Anna Karenina Tolstoy opened an experimental school on his estate to try and answer them His experiences there incited his life long inquiry into the meaning and purpose of religion literature art and life itself In this text Daniel Moulin tells the story of the course of Tolstoy s educational thought and how it relates to Tolstoy s fiction and other writings It begins with his experience of being a child and adolescent incorporates his travels in Europe the experimental school his literature and his views on art philosophy and spirituality Throughout the relevance and impact of Tolstoy s thinking on education are translated into applicable theory for today s education students

*St Augustine* Ryan N. S. Topping, 2014-10-23 After setting Augustine s thought firmly within the context of his life and times Ryan Topping examines in turn the causes of education the purposes pedagogy curriculum and limits of learning as Augustine understood them Augustine s towering influence over Medieval and Renaissance theorists from Hugh of St Victor to Aquinas to Erasmus is traced The book concludes by drawing Augustine into dialogue with contemporary philosophers exploring the influence of his meditations on higher education and suggesting how his ideas can reinvigorate for our generation the project of liberal learning

**John Locke** Alexander Moseley, 2014-10-23 John Locke is one of the great minds in educational history Drawing on his perceptive observations of families and children he saw the importance of adapting learning to the child s dispositions Critical of schools he is the fountainhead of home tutoring child centred learning and the importance of enjoyable learning But for Locke learning was

not about facts a good education produced gentlemen who could in turn adapt themselves to commerce and politics Locke s philosophy helped provide rigour to the scientific revolution the impetus for the expansion of schools for the poor which should be profitable and child psychology Alexander Mosely sets Locke s educational writings in their context with a sensitive reading of what Locke understood by education and highlights the relevance of the study of Locke s work to our understanding of education today      Philosophical Theories of Education F. Gotz,2001-08-30 Most contemporary accounts of the role of technology in world culture are alarmist and at times condemn many uses of technology without much effort to get beyond the surface of this worldwide phenomenon Technological innovations that might rightly be critiqued are taken as representative of the entire field of technology On the other hand there are those including some scientists for whom technology and its uses pose no questions at all and who seem to delight in predictions of a future totally dominated by technology They prey on the human delight in newness and innovation and on our readiness to be surprised by what may someday come to be G tz takes the position that so called technology problems are really our problems not the fault of technology Technology is an integral part of what we are as human beings a significant aspect of our evolution G tz also advances the thesis that technology may be viewed from the perspective of the human capacity to grow and that when we do so we are in effect spiritualizing technology and rendering it more meaningful to ourselves G tz suggests several models that may be employed to achieve this spiritualization This provocative analysis will be of interest to general readers as well as scholars students and researchers concerned with contemporary social and religious issues      **The Child Life Quarterly** ,1908      Connected Thoughts Stephen R. Herr,1997 Since Antioch s reorganization in the early 1920s the event has been heralded as a wonder of academic innovation and generally credited to the work of one man Arthur Morgan This book examines the politics of educational innovation as represented by that reorganization Connected Thoughts draws on a large number of sources to redefine Antioch College s reorganization In doing this the author links the event to the numerous institutions organizations and individuals who helped define the event showing that the reorganization was neither a remarkable educational innovation not the work of one man but rather required the efforts of a number of individuals whose work was in many ways in harmony with both the traditions of the institution and the larger educational community This is an illuminating study of institutional renewal and reorganization      **The Philosopher's Autobiography** Shlomit C. Schuster,2003-01-30 Throughout the ages philosophers have examined their own lives in an attempt both to find some meaning and to explain the roots of their philosophical perspectives This volume is an introduction to philosophical autobiography a rich but hitherto ignored literary genre that questions the self its social context and existence in general The author analyzes representative narratives from antiquity to postmodernity focusing in particular on three case studies the autobiographies of St Augustine Rousseau and Sartre Through the study of these exemplary texts

philosophical reflection on the self emerges as a valid alternative to Freudian psychoanalysis and as a way of promoting self renewal and change     The Greatest Educators Ever Frank M. *Citizens and Statesmen* Mary P. Nichols,1992 Two important criticisms of contemporary liberalism turn to Aristotle s political thought for support that which advocates participatory democracy and that sympathetic to the rule of a virtuous or philosophic elite In this commentary on Aristotle s politics the author explores how Aristotle offers political rule as an alternative to both the rule of aristocratic virtue and an unchecked participatory democracy Writing in lucid prose she offers an interpretation grounded in a close reading of the text and combining a respectful and patient attempt to understand Aristotle in his own terms with a wide sympathetic and argumentative reading in the secondary literature     *The British National Bibliography* Arthur James Wells,2003     **Biographical Dictionary of Psychology** Leonard Zusne,1984-10-18
