Human Resource Management In Singapore - The Complete Guide, Volume B: Work And Remuneration Oun Hean Loh, Jacqueline Suet Peck Chin, 2024-03-15 This HR management series is timely. It is written in the Singapore context guided by our local employment laws and tripartite guidelines and standards. I commend the authors for their endeavour to produce such a first. Lim Swee Say Former Minister for Manpower Former Secretary General National Trades Union Congress Human Resource Management in Singapore The Complete Guide covers a wide spectrum of human resource management topics in five volumes: Employment Management, Work and Remuneration, Employee Benefits, Performance and Development, and Employee Conduct and Relations. In every chapter, the WHY, WHAT, and HOW are presented lucidly. The books are a must-have GPS for any human resource practitioner in Singapore. Students, academics, and bosses into human resource management as well as overseas human resource practitioners will also find the books helpful and instructive. Volume B on Work and Remuneration deals with regulatory provisions and practices on working hours and payments for overtime and work on rest days and public holidays. The primary takeaway is a comprehensive cover of salary design using the principles of pay positioning and pay mix. Salary instruments including salary ranges, increments, allowances, fixed and variable bonuses, sales commission, and gainsharing incentive plans are explained. Readers are guided through salary interventions such as salary adjustments, deductions, and cuts as well as salary survey and benchmarking and salary administration and governance. The last chapter discusses how to manage and raise the wages of lower wage workers, a very pertinent topic in Singapore. This volume will equip readers with salary concepts, insights, and practical pointers to design and manage a salary blend that will support an organisation's talent strategy.

The Sociolinguistics of Voice in Globalising China Jie Dong, 2016-07-01 This book deploys and develops the notion of voice in an investigation of China's rapidly reshuffling society. The book is structured around two aspects of the voicing process in contemporary China: 1. stratification of voice which addresses the stabilizing condition of voice and 2. restratification of voice that draws attention to the dynamics of the system of which the order is reshuffling and not yet apparent. This structure allows us to unveil the hidden forces played out in the voice making process and to stratifying and re-stratifying process of contemporary Chinese society in which some people are making themselves heard whereas others are losing voice. Despite its importance and usefulness, voice has been under-theorized in recent decades. The ambitions of this book therefore are to invest serious efforts in developing the notion and to position it in the center of the theoretical toolkits available to students and scholars within and outside sociolinguistics. *Autocar*, 2003
