Rod Grainger, 1995-06 Rod set out to create a new kind of owner's workshop manual friendly, easy to understand yet more detailed than any other manual. This book is the result. Rod stripped down an MX-5 Miata USA Eunos Japan in a domestic garage using ordinary tools and in the process took over 1500 step-by-step photographs. The result is a superbly detailed text which passes on to the reader every detail of important jobs including how problems can be overcome without resorting to special tools.

The Mazda Miata is one of the most popular sports cars on the road today. In production for more than 20 years, the Miata's popularity has grown and the number of aftermarket components available to the Miata enthusiast has grown too. This immense selection of parts has made it difficult for many would-be modifiers to choose the proper combination that will help them reach the goals they have set for their two-seaters.

Author and Miata expert Keith Tanner has been modifying, repairing, building and racing Miatas for years and he will guide you through how to best modify your car to suit your needs, starting with an explanation on how everything works and how the various parts will interact. You'll not only learn what upgrades will help you reach your goals but also how to adjust or modify what you have to make your car work at its best. From autocross to cross-country touring, the Miata can do it all. Keith Tanner tells you how to make it happen.
