Michelangelo Weis Books, 2020-12-04 Michelangelo's Sistine Chapel ceiling is one of the most influential artworks of all time The Chapel is a foundational work of Renaissance Art Painted directly on the ceiling of the Sistine Chapel in the Vatican period This

masterpiece depicts key scenes from the Book of Genesis. The complex narratives and skillfully painted human figures stunned viewers when the painting was first unveiled to the public in 1512. The complex undertaking continues to impress the thousands of pilgrims and tourists from around the world who visit the chapel every day. In 1508 Pope Julius II, also known as Giulio II and Il papa terribile, asked Michelangelo to paint the Sistine Chapel's ceiling. Julius was determined that Rome should be rebuilt to its former glory and had embarked on a vigorous campaign to achieve the ambitious task. This pope felt that such artistic splendor would not only add luster to his own name but also serve to supersede anything that Pope Alexander VI, a Borgia and Julius rival, had accomplished. The ceiling measures about 131 feet (40 meters) long by 43 ft (13 m) wide. Although these numbers are rounded, they demonstrate the enormous scale of this nontraditional canvas. In fact, Michelangelo painted well over 5,000 square feet of frescoes. It took Michelangelo a little over four years, from July of 1508 to October of 1512, to finish the paintings. Michelangelo had never painted frescoes before and was learning the craft as he worked. What's more, he chose to work in *buon fresco*, the most difficult method and one normally reserved for true masters. The entire process required both the creation and learning of many hard techniques in perspective, namely painting figures on curved surfaces that appear correct when viewed from nearly 60 feet below. Michelangelo gets and deserves credit for the entire project. The complete design was his. The sketches and cartoons for the frescoes were all of his hand, and he executed the vast bulk of the actual painting by himself. The Master needed many assistants, if only to mix his paints, scramble up and down ladders, and prepare the day's plaster, more than a simple trip to a big box retailer. Occasionally a talented assistant might be entrusted with a patch of sky, a bit of landscape, or a figure so small and minor it is barely discernable from below.
