Love Is a Mix Tape Rob Sheffield, 2007-01-02 The happiest saddest sweetest book about rock n roll that I've ever experienced Chuck Klosterman Mix tapes We all have our favorites Stick one into a deck press play and you're instantly transported to another time in your life For Rob Sheffield that time was one of miraculous love and unbearable grief A time that spanned seven years it started when he met the girl of his dreams and ended when he watched her die in his arms Using the listings of fifteen of his favorite mix tapes Rob shows that the power of music to build a bridge between people is stronger than death You'll read these words perhaps surprisingly with joy in your heart and a song in your head the one that comes to mind when you think of the love of your life Praise for Love is a Mixtape A memoir that manages no small feat to be funny and beautifully forlorn at the same time The New York Times Book Review Humorous heartbreaking and heroic Entertainment Weekly The finest lines ever written about rock n roll Like that song on the radio every word of Rob's book is true Love is a mix tape Rolling Stone Many of us use pop culture as a mirror of our emotional lives but Sheffield happily walks right through the looking glass Los Angeles Times Sheffield writes with such aching remembering you feel like you are invading his privacy and it's the truth of those details that make this memoir so touching Newsweek **Love Unfolded**

Creative Dynamics Christina Ljungberg,2012-10-31 How do readers make sense of a picture a photograph or a map in literary narratives in which visual signs play a critical role How do authors accomplish their various objectives in constructing such complex texts What strategies and techniques do they use to project fictional worlds and to provide their readers with the means for orienting themselves there This book investigates the dynamics of the imaginary diagrams created by cartographers photographers and writers of narratives giving ample evidence of how mapping practices have inspired the imagination of a vast number of authors from Thomas More up to contemporary writers A special focus is on the effects created by the projection of photographs into the narrative space and how our seemingly effortless interpretation of photographs and even maps masks complex cognitive processes The theoretical horizon of this study encompasses the fields of cartography mental maps iconicity research and the spatial turn in cultural studies
