Music Similarity and Retrieval Peter Knees,Markus Schedl,2016-05-28 This book provides a summary of the manifold audio and web based approaches to music information retrieval MIR research In contrast to other books dealing solely with music signal processing it addresses additional cultural and listener centric aspects and thus provides a more holistic view Consequently the text includes methods operating on features extracted directly from the audio signal as well as methods operating on features extracted from contextual information either the cultural context of music as represented on the web or the user and usage context of music Following the prevalent document centered paradigm of information retrieval the book addresses models of music similarity that extract computational features to describe an entity that represents music on any level e.g song album or artist and methods to calculate the similarity between them While this perspective and the representations discussed cannot describe all musical dimensions they enable us to effectively find music of similar qualities by providing abstract summarizations of musical artifacts from different modalities The text at hand provides a comprehensive and accessible introduction to the topics of music search retrieval and recommendation from an academic perspective It will not only allow those new to the field to quickly access MIR from an information retrieval point of view but also raise awareness for the developments of the music domain within the greater IR community In this regard Part I deals with content based MIR in particular the extraction of features from the music signal and similarity calculation for content based retrieval Part II subsequently addresses MIR methods that make use of the digitally accessible cultural context of music Part III addresses methods of collaborative filtering and user aware and multi modal retrieval while Part IV explores current and future applications of music retrieval and recommendation **Normal Instructor and Teachers World** ,1915
