Disenchantment () Vol. I: Fracture (1980-1983) By Zhang Kangkang, 2025-09-18 This is a book about memory and forgetting The 1980s grow increasingly distant occasionally returning with wind and snow but transformed to dust or drizzle or wavering suspended in the tainted air like a deathless specter That decade marking the end of our youth has the desolate beauty of an elegy ushering in our middle age it has the solemn and stirring quality of a processional Gravity has smashed the past into fragments that only words can laboriously piece together While knowing that it is merely a pointless addendum a futile reboot a belated tribute I have stubbornly attempted to look back and write this book Luo Yi once said History is essentially a court that is constantly in retrial One person s biased and narrow memories are trivial against the grand and stirring historical narrative written by the victors But I ve always forgotten what should be remembered and remembered what should be forgotten The opus magnum of a writer who has experienced the whole period of the communist regime in China Disenchantment is filled with scenes and stories oozing authenticity Michel Bonnin The author deconstructs the enchantment of ideology and reveals the brutal political violence of this period through the backgrounds and stories of her characters Su Xiaokang A stellar contribution to Chinese literature and the understanding of contemporary Chinese history Michael Duke A courageous and important work which deserves to be published in the Chinese speaking world and beyond Richard King An epic of an extraordinary age of great transformations and convulsions Bernadette Y Li A Chinese version of Doctor Zhivago David Rong **Godey's Lady's Book** ,1876 **Can Animals be Persons?** Mark Rowlands, 2019 Can animals be persons Scientific and philosophical consensus supplies a resounding No In this book Mark Rowlands disagrees Not only can animals be persons many of them probably are A person is an individual in which consciousness rationality self awareness and other awareness converge and many animals are such individuals 2013 Update To Esoptrics' Try To End The Notion Of The Continuum & The "Absurd" Math It Begets Edward N. Haas, 2014-01-08 For at least 2 500 years now one of the most if not the most hotly widely and often contested issues is the notion of the continuum It s a notion which looks upon time space locomotion and change as continuous which is to say it implies there is no limit to the smallness of the smallest segment of each Thereby it necessarily invokes the notion of in finite divisibility The latter then demands mathematical conclusions so mani festly self contradictory they boggle the mind no less than does the notion of a square circle No won der then they move many a renowned thinker such as John Locke and David Hume to proclaim those conclusions absurd See my quotes from them on pages II VIII **Victoria of Many Faces, Vol. 1 (light novel)** Syuu, 2024-09-24 Molded from childhood to be a topflight covert operative Chloe spends her days carrying out secret missions for the kingdom of Hagl But when she discovers that her boss has been manipulating her she assumes the identity of a woman named Victoria and flees the country turning her back on everything she knows for a chance at the normal life she s always dreamed of Fortunately life in the neighboring kingdom of Ashbury proves far more fulfilling than Victoria could have ever imagined

thanks in no small part to Nonna an abandoned girl she takes in And even though Victoria has sworn off being a spy the skills she cultivated during her career pay off in surprising ways from landing her a new job to helping her make colorful acquaintances As more people take notice of her extraordinary talents however her former employer comes knocking and the world she s worked so hard to build begins to fall apart
