They also examine how the White House used YouTube messaging to rebuild the first lady Michelle Obama's image in ways that became acceptable to a wider American public. Obama's rhetorical struggles to work within tensions created by the intersection of race and violence and analyze President Obama's speeches at Tribal Nations Conferences. Barack Hussein Obama's Presidency will be a key resource for scholars and researchers of communication studies, political communication, media and cultural studies, race and ethnic studies, and political science, while also appealing to anyone interested in the communicative aspects of Obama's presidency and American politics.
