new sources of clean energy to generate electricity heat and power our industries homes and workplaces Up to now we have
relied on and used only fossil fuels to power our industrial and domestic activities The byproducts of fossil fuels include
irreversible pollution and contamination of our Earth climate change global warming and increase in pathogenic and
medication resistant diseases Exhaustible fossil fuels are expensive to produce and distribute and not everybody can afford
them Why not switch to natural non polluting inexpensive inexhaustible fuels such as solar wind water etc fuels This is the
