Tourism Planning and Development in South Asia Dimitrios Styliadis, Boopen Seetanah, 2021-04-09 Tourism has huge significance as a global economic and social phenomenon and given the growing reliance on the industry by service dependent economies around the world the lack of focus on tourism planning and development in South Asia is surprising. Current issues including social, environmental and cultural aspects underpinned by security challenges have defined the tourism development narratives in many South Asian countries over the last decades and lead to fluid demand and supply patterns. The appetite for and reliance on tourism growth is seen regardless of the numerous challenges faced by the region. Despite a rich and steady history of tourism and demand driven by numerous pull destinations most South Asian countries have not invested or benefitted from global tourism growth trends.

Tax Reform with the 20/20 Tax James C. Tanner, 2015-12-02 Many books have been written about tax reform but none offer the pragmatic and understandable approach that you'll find in this treatise filled with a nonpartisan set of solutions to fix an antiquated and indecipherable tax system. James C. Tanner, a certified public accountant with more than four decades of experience, explores how we can create a fair and logical tax framework by rethinking income exclusions, exemptions, deductions, credits, tax brackets, capital gains, and other tax alternatives; reform tax expenditures including health insurance and medical costs, home mortgage and other interest deductions, retirement plan deductions, charitable donations, and capital gains on assets sold and transferred; lower the tax rates for most individual and corporate taxpayers while making our US companies more competitive with their foreign counterparts. Tanner also outlines how historical decisions and legislative proposals led to our current tax laws under the premise that we can't fix them without understanding why they were created in the first place. For those who want to participate in the national debate on federal tax reform, it begins with a firm understanding of the system and the practical proposals in Tax Reform with the 20/20 Tax.
