Masters Unisa 2016:

ICCWS 2016 11th International Conference on Cyber Warfare and Security Dr Tanya Zlateva and Professor Virginia Greiman, 2016 The 11th International Conference on Cyber Warfare and Security ICCWS 2016 is being held at Boston University Boston USA on the 17-18th March 2016. The Conference Chair is Dr Tanya Zlateva and the Programme Chair is Professor Virginia Greiman, both from Boston University. ICCWS is a recognised Cyber Security event on the International research conferences calendar and provides a valuable platform for individuals to present their research findings, display their work in progress and discuss conceptual and empirical advances in the area of Cyber Warfare and Cyber Security. It provides an important opportunity for researchers and managers to come together with peers to share their experiences of using the varied and expanding range of Cyberwar and Cyber Security research available to them. The keynote speakers for the conference are Daryl Haegley from the Department of Defense DoD who will address the topic Control Systems Networks What's in Your Building and Neal Ziring from the National Security Agency who will be providing some insight to the issue of Is Security Achievable A Practical Perspective. ICCWS received 125 abstract submissions this year. After the double-blind peer review process, there are 43 Academic Research Papers, 8 PhD papers, Research papers, 7 Masters and 1 work in progress papers published in these Conference Proceedings. These papers represent work from around the world including Australia, Canada, China, Czech Republic, District of Columbia, Finland, France, Israel, Japan, Lebanon, Netherlands, Pakistan, Russian Federation, Saudi Arabia, South Africa, Turkey, United Arab Emirates, UK, USA.

Sustainable Development Goals for Society Vol. 1 Godwell Nhamo, Muchaiteyi Togo, Kaitano Dube, 2021-06-16. Written by 43 authors from Africa, Europe and Latin America, this book presents 19 topics addressing poverty in the context of Sustainable Development Goals (SDGs), leadership in implementing SDGs and SDGs in service delivery and local government. As the world has gone past five years of implementing the 2030 Agenda for Sustainable Development and the intertwined 17 SDGs, new opportunities in research continue to open up. Hence, documenting some of the initiatives put in place around the world regarding the implementation of the SDGs is one of the aims of this publication. With 10 years remaining, the book further enhances the desire to scale up SDGs implementation. The selection of case studies from the selected regions also provides a balance in terms of how the SDGs are being rolled out for economic growth, environmental stewardship and social protection. The ambition remains even with the challenge brought by the COVID-19 pandemic that preoccupied the whole of 2020, spilling over to 2021. There is no doubt that resources have been diverted, but the world must stay on the course to 2030 and beyond. Therefore, the book is relevant for several stakeholders including academics, development partners, government officials and other individuals that are involved in making sure no one is left behind in the lead to 2030.

Sustainable Development Goals for Society Vol. 2 Godwell Nhamo, David Chikodzi, Kaitano Dube, 2021-06-26. This book profiles various cases that are emerging in

addressing global challenges in the context of SDGs for society in the era of climate change and covers case studies of projects being undertaken to tackle biodiversity food security climate change energy and water security The book is written by 37 authors and will appeal to various stakeholders including academics working within the identified thematic areas policy planners development agencies governments and United Nations agencies The adoption of the Sustainable Development Goals SDGs in 2015 ushered a new era in the global development agenda as the world transitioned from the Millennium Development Goals MDGs The new era of SDGs that are all inclusive unlike the MDGs with the focus now being on ensuring human success that is predicated on environmental protection The year 2020 marked five years post the adoption of the SDGs with increased calls for stock taking of progress made amid strong calls for a decade of action to accelerate the delivery of the SDGs by 2030 These calls have been louder now given the impact of the COVID 19 pandemic which reset the global economy and increased intensity of extreme weather events across the world Since climate change has emerged as one of the biggest threats to the achievement of the SDGs there has been growing concerns on its impact on biodiversity loss and the extinction of some species There are also concerns regarding increased food insecurity at the household level in some parts of the world particularly in Asia and Africa With the demand for climate change action on the increase there have also been growing calls for the big carbon emitters to drastically cut their emissions and invest in clean energy to save the planet by following development pathways making emissions stay under the 1.5 °C increase in temperature

Sustainable Development Goals and Institutions of Higher Education Godwell Nhamo, Vuyo Mjimba, 2019-09-14 This volume brings together both theoretical and case study based contributions to the implementation of the Sustainable Development Goals SDGs in Institutions of Higher Education IHE presenting an impactful combination of authors from both developing and developed countries While most current publications addressing the SDGs and education focus on sustainable development in general and specific topics such as climate change or energy this book attempts to accelerate the localisation of the SDGs by presenting opportunities and innovations offered in various universities and campuses regarding SDGs localisation The book seeks to provide an important contribution to the global dialogue on IHE and the SDGs and will be of interest to academics and researchers engaged in the SDGs and education as well as government agencies and other interested stakeholders The book focuses on curriculum and learning matters research and development as well as community engagement Case studies detail the integration of SDGs in academic and professional development new approaches to implementing sustainability science instruction improvements in teaching practices to enhance teacher competence and responsible management education Additional focus is placed on the alignment of the SDGs in higher education with the other goals emphasizing technological innovation for improved human health and environmental management and climate change policies and action plans Interdisciplinary solutions for pressing environmental problems are also provided making sure that no one is left behind in realising these global development goals **Women's**

Empowerment for a Sustainable Future Claude-Hélène Mayer, Elisabeth Vanderheiden, Orna Braun-Lewensohn, Gila Chen, Kiyoko Sueda, Brightness Mangoloth, Saba Safdar, Soyeon Kim, 2023-07-08 This edited volume focuses on women's empowerment for a sustainable future. It takes cultural and transcultural and positive psychology perspectives into consideration and explores the topic of women's empowerment from diverse stances across social strata, cultural divides as well as economic and political divisions. It addresses the critique of the overly Western focus of positive psychology on this topic by adopting a transnational and transcultural lens and by taking non-WEIRD (Western Educated Industrialized Rich Democratic) samples into in-depth consideration. The chapters therefore focus on women from diverse socio-cultural, political, socio-economic backgrounds and discuss their ways of empowering others and being empowered. They also discuss related positive psychology constructs such as coping, resilience, transformation, growth, leadership, creativity, identity development, sustainable action as well as positive socio-economic, political, and eco-sustainable thought and action. The volume as a whole looks at women's leadership as a factor of empowerment. A further fundamental assumption is that women's empowerment is needed to create a sustainable future at micro, meso, and macro levels, which presumes safety, peace, ecological considerations, and compassionate leadership.

Routledge Handbook of Food Waste Christian Reynolds, Tammara Soma, Charlotte Spring, Jordon Lazell, 2020-01-13 This comprehensive handbook represents a definitive state of the current art and science of food waste from multiple perspectives. The issue of food waste has emerged in recent years as a major global problem. Recent research has enabled greater understanding and measurement of loss and waste throughout food supply chains, shedding light on contributing factors and practical solutions. This book includes perspectives and disciplines ranging from agriculture, food science, industrial ecology, history, economics, consumer behaviour, geography, theology, planning, sociology, and environmental policy among others. The Routledge Handbook of Food Waste addresses new and ongoing debates around systemic causes and solutions, including behaviour change, social innovation, new technologies, spirituality, redistribution, animal feed, and activism. The chapters describe and evaluate country case studies, waste management, treatment, prevention, and reduction approaches and compares research methodologies for better understanding food wastage. This book is essential reading for the growing number of food waste scholars, practitioners, and policy makers interested in researching, theorising, debating, and solving the multifaceted phenomenon of food waste.
