

AUDIO PROCESSOR MODEL AP-1D

What is an Audio Processor ?

AP-1D picks up the desired signals only from reproduced receiving sounds by voice processing through connection to the head phone terminal of your radio receiver or transceiver. It improves SQ at the same time by narrowing the bandwidth. For the reason this machine is called an audio processor. AM and SCL fans, to say nothing of SSB and CW fans, all agree that the results which this machine bring are outstanding.

Functions of Each Section

(1) Band-pass Filter (BAND PASS)

Based on the NBWV(Narrow Band Voice Modulation) a hot topic recently, this machine reproduces voice with a bandwidth of only 200Hz between 600 and 1800Hz. Even a conventional SSB requires 300-3000Hz. The difference in carry point and that ear-offending noise of radio interference experienced in the QSO of SSB can be cut flat by using this machine. Noise over 1500Hz can also be eliminated for clear sound which can be listened to for a long time without feeling tired.

(2) Notch Filter (NOTCH)

This filter removes single frequency interference contained in receiving signals. It removes beat which mixes while receiving, or interference at specific locations. The frequency and dip point can be adjusted freely.

(3) Peak Filter for CW (PEAK)

This filter is especially for CW, and is a band-pass filter with an amazingly narrow band of 40 - 50Hz at -6dB. Just imagine that desired and long awaited station coming in strong with that awful QRM toned out. The tuning range at the peak point can be changed between 500Hz and 1000KHz. The machine demonstrates its power when catching signals heard very slightly on the side of a powerful station when trying DX QSO. AP-1D incorporates a low-frequency amplifier with a speaker to make the desired signal audible after it has passed this filter. It also contains a constant-voltage regulated power supply for long trouble-free operation. Enjoy fine QSO free from interference, beat, high-frequency noise, and tiredness. Once you use it, you won't want to give it up.
