KITCHEN MIXER TAP

Quick and Easy Installation

Mixer taps are fixed into place and are not responsible for supplying water or for adding air to your drinking or cooking water. Available in a variety of styles, including dual-lever or single-lever, mixer taps offer the most precise flow and efficient water use. They are designed to provide water at a range of pressures, from low to high, and are generally, these days, aerated directly at the tap. It is therefore possible to find self-mounted taps which feature a separate hot or cold flow meter if you intend to install a flow meter to monitor or control your drinking water tap. Installation guide and safety note.

PREPARATION

Start by shutting off the water supply and turning on several taps to drain the pipes. If the goal is to replace your tap, make sure that the hole in the sink is compatible with the hole in the tap.
