Companies and Its Deployment Within the Chinese Economy** Xiaohuan Zhang,2006-11 The thesis aims to examine and  
explore NPD activities within China and establish whether a Western interpretation of NPD is appropriate to indigenous  
Chinese companies engaged in an economy which is entering an era of globalisation The research is based on ten case  
studies undertaken within five industrial sectors lighting light fabrication watches personal consumer products white goods  
automotive and telecommunications Cases are representative of the differing types of Chinese organisations and include  
examples of privately collectively and state owned enterprises POEs COEs and SOEs together with international joint  
ventures IJVs Conceptual approaches are developed to examine organisational background NPD culture technology transfer  
NPD coordination entrepreneurial behaviour network development and market dynamics within each case study The units of  
analysis in the framework reflect three main themes of intra extra organisational and strategic issues which are revisited  
throughout the thesis The case studies are analysed using a mapping process in which each of the cases is described in terms  
of its engagement with NPD roles and performance and their correlation with economic development compared with Western  
practice Contingent on this the thesis identifies a series of assumptions within Western literature which are evaluated by  
assessing the case study findings to establish the transferability of NPD conceptions In addition correlations between  
differing NPD related issues are identified using repertory grid theory detailed in a separate appendix and complementary to  
the case study analysis The thesis concludes by proposing models of strategic NPD specific to Chinese organisations at both  
intra organisational and micro and macro economic levels these provide an overview of distinctive NPD performance in  
indigenous companies contextualised within the Chinese economy The implication is that the future development of the  
Chinese economy will necessitate greater engagement with NPD albeit in a differing form      **Motor Sport** William
