**Assessing Academic Literacy in a Multilingual Society** Albert Weideman,John Read,Theo du Plessis,2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience *Bicycle or Unicycle?: A Collection of Intriguing Mathematical Puzzles* Daniel J. Velleman,Stan Wagon,2020-08-17 Bicycle or Unicycle is a collection of 105 mathematical

puzzles whose defining characteristic is the surprise encountered in their solutions Solvers will be surprised even occasionally shocked at those solutions The problems unfold into levels of depth and generality very unusual in the types of problems seen in contests In contrast to contest problems these are problems meant to be savored many solutions all beautifully explained lead to unanswered research questions At the same time the mathematics necessary to understand the problems and their solutions is all at the undergraduate level The puzzles will nonetheless appeal to professionals as well as to students and in fact to anyone who finds delight in an unexpected discovery These problems were selected from the Macalester College Problem of the Week archive The Macalester tradition of a weekly problem was started by Joseph Konhauser in 1968 In 1993 Stan Wagon assumed problem generating duties A previous book written by Wagon Konhauser and Dan Velleman Which Way Did the Bicycle Go gathered problems from the first twenty five years of the archive The title problem in that collection was inspired by an error in logic made by Sherlock Holmes who attempted to determine the direction of a bicycle from the tracks of its wheels Here the title problem asks whether a bicycle track can always be distinguished from a unicycle track You ll be surprised by the answer

Leading Change in Teacher Education Thuwayba Al Barwani, Maria Assunção Flores, David Imig, 2018-12-12 The international attempt to expand schooling despite dealing with an insufficient number of trained teachers has placed significant pressure on teacher education Continued effort to change all aspects of teacher education including ways of learning methods of practice institution interaction and assessment of teaching ability in order to fulfil the desire to offer inclusive and equitable teaching for all is a serious consideration In response to this increased attention on cross national campaigns Leading Change in Teacher Education features discussions covering what has been done how and why the change has happened the journey itself and the challenges encountered along the way alongside contributions from international academics who share their reflections and suggestions for a way forward despite a global shortage of teachers Strategies surrounding the design and delivery of education now centre on improving how teachers are prepared supported and evaluated Leading Change in Teacher Education captures the stories of international change leaders by Providing details of both the successes and challenges faced Presenting innovative practices in teacher education from around the world Describing the strategies put in place to ensure that teacher education is developing The topics discussed are relevant for educators policymakers and international organizations involved in the design and implementation of programmes in teacher education Leading Change in Teacher Education is also an invaluable resource for those looking to increase the changes occurring within teacher education
