

KIDS' FOOT SIZING CHART

For shoe sizing accuracy, we recommend printing this document on 8.5"x11" paper at 100% (full size).

FIND YOUR KIDS' SIZES

This is going to work best if they don't wiggle. Yeah, right, who are we kidding? Place your child's heel along the solid line at the base of the chart. Have your child put his or her weight on the foot being measured and make sure all toes are relaxed. The line that touches the longest toe indicates the correct size. The shorter lines in between indicate half sizes. Since one foot is often larger than the other, make sure you measure both feet. You should purchase the size that fits the largest foot.

FIND YOUR KIDS' WIDTHS

Hold on. We are almost finished. When measuring his or her right foot, align your child's instep (the inside of the foot) with the solid line on the left side of the chart. If the outside of the right foot moves beyond the dotted line, you should consider buying a wide width. Last step...promise. Now repeat with the left foot by aligning his or her instep with the solid line on the right side of the chart. Okay, go play.

Infant: sizes 0 - 4
Toddler: sizes 4½ - 10
Pre School: sizes 10½ - 3
Grade School: sizes 3½ - 7

ACCURACY CHECK:

To ensure correct printing size,
place a credit card here. If it fits,
the chart was printed correctly.
