communications are evolving and disaster communications must evolve to capitalize on these changes and exploit the opportunities they provide Bloggers have the potential either to add to the chaos during a crisis or to help convey accurate data and report on local conditions Disaster communications must incorporate a way to manage their impact and if possible use them for the common good Finally even though the means to the end are evolving the goals the values and the underlying principles of effective disaster communication the need for transparency increased accessibility trustworthiness and reliability and to create partnerships with the media have not changed and need to be embraced along with the practical ability to convey information effectively Applies the principles of emergency management to communications during a disaster Covers terrorist incidents accidents and natural disasters like hurricanes and earthquakes Shows how to use blogs text messages and cell phone cameras as well as government channels and traditional media to communicate during a crisis
