**Pennsylvania Pesticide Applicator Certification Core Manual**, 2008      *Pesticide Applicator Training Manual*, 2012

All pesticide applicators are required to know basic safety and handling rules for pesticide use. The purpose of this manual is to help you learn those facts and skills. By reading each chapter and then testing yourself with the questions at the end, you can teach yourself what you need to know. This is the basic or core manual for all pesticide applicators. Manuals have been developed for specialty areas such as agricultural use, aerial applicators, pest control operators, etc. This core manual has been divided into two sections. The first section covers background information that every pesticide applicator should know. For example, laws, regulations, toxicity, and safety. The second section describes the steps and decisions which every applicator has to make in his daily routine on the job. The manual has been set up to help you prepare for the pesticide applicator certification exam.
