Holocaust Education E. Doyle Stevick, Deborah Michaels, 2017-10-02 Holocaust Education Promise Practice Power and Potential provides timely studies of some of the most pressing issues in teaching and learning about the Holocaust around the world Europe is experiencing both anti Semitic attacks many by radicals claiming the banner of Islam and the resurgence of right wing movements that are openly hostile to minority rights particularly for marginalized and vulnerable groups like the Roma Sinti and Muslim refugees Can Holocaust education an encounter with the most extreme racial ideology to afflict the continent reduce violence and prejudice against Jewish and other minority groups The important studies in this volume address these and other pressing issues for the field including the progress of Central and Eastern European countries that experienced both Soviet hegemony and Nazi terror in grappling with the history of the Holocaust This book was originally published as a special issue of Intercultural Education *Europe in the Classroom* Simona Szakács, 2017-10-13 This book provides an unconventional account of post 1989 education reform in Romania By drawing on policy documentation interviews with key players qualitative data from everyday school contexts and extensive textbook analysis this groundbreaking study explores change within the Romanian education system as a process that institutionalises world culture through symbolic mediation of the concept Europe The book argues that the education system s structural and organisational evolution through time is decoupled from its self depiction by ultimately serving a nation building agenda It does so despite notable changes in the discourse reflecting increasingly transnational definitions of the mission of the school in the post 1989 era The book also suggests that the notions of nation and citizen institutionalised by the school are gradually being redefined as cosmopolitan matching post war patterns of post national affiliations on a worldwide level
