Young Adult Literature Katherine Toth Bucher, M. Lee Manning, 2006 *Young Adult Literature Exploration Evaluation and Appreciation* is an exciting new book developed to identify for teachers how to better connect adolescents with good literature. Comprehensive enough to ensure that teachers understand today's adolescents and the literature that will engage them yet slim enough to ensure readers have the opportunity to read the books themselves, this book will help teachers provide a rich educational experience for adolescents throughout the middle and secondary curriculum while nourishing their love of reading. This book addresses adolescent culture and the types of literature that engage adolescents including horror, graphic novels, comic books, and many forms of media more thoroughly and insightfully than any other on the market. Private faith finds very public outlets through the media's appetite for voices and choices. Faith-based networks have become media savvy, urging their members to send barrages of emails, faxes, telephone calls, letters of praise or outrage to politicians. Those same politicians return the volley using the broadcast media with great skill, wooing the faithful, convincing the cynical that God is on their side. Only a deity could be on so many sides simultaneously. Alice Bach's new book reflects her long time focus on the Bible, religion, and culture. Popular religion is expressed within our culture in rock videos, televangelism, political rhetoric, children's*

Islamic Movements in India Arndt-Walter Emmerich,2019-11-11 This book analyses the emerging trend of Muslim minority politics in India and illustrates that a fundamental shift has occurred over the last 20 years from an identity dominated self serving and inward looking approach by Muslim community leaders Islamic authorities and social activists that seeks to protect Islamic law and culture towards an inclusive debate centred on socio economic marginalisation and minority empowerment The book focuses on Muslim activists and members and affiliates of the Popular Front of India PFI a growing Muslim minority and youth movement Drawing on qualitative fieldwork undertaken since 2011 the author analyses recent literature on Muslim citizenship politics and the growing involvement of Islamist organisations and movements in the democratic process and electoral politics to demonstrate that religious groups play a role in politics development and policy making which is often ignored within political theory The book suggests that further scrutiny is needed of the assumption that Muslim politics and Islamic movements are incompatible with the democratic political framework of the modern nation state in India and elsewhere Contributing to a more nuanced understanding of how Islamic movements utilise various spiritual organisational and material resources and strategies for collective action community development and democratic engagement the book will be of interest to academics in the field of political Islam South Asian studies sociology of religion
