

# SOCIAL BOND THEORY

Hirschi's Social Bond Theory suggests that individuals are less likely to engage in criminal activities when they have strong attachments to family, school, and work.

## HIRSCHI QUOTE

"Control theory assumes that the bond of affection for conventional persons is a major deterrent to crime. The stronger this bond, the more likely the person is to take it into account when and if he contemplates a criminal act" (Hirschi, 2001, p. 84).

## ELEMENTS

The theory states there are four types of social bonds that prevent deviance:

- 1 Attachment
- 2 Commitment
- 3 Involvement
- 4 Belief
