Kursk The Northern Front:

Kursk 1943 Robert Forczyk, 2014-09-20 The Kursk campaign was the major German offensive of 1943 and the last strategic offensive the Germans were to launch on the Eastern Front in World War II In the summer of 1943 recoiling from defeat at Stalingrad Hitler conducted a limited objective offensive to eliminate the Soviet Kursk salient Operating a classic pincer attack of the kind that succeeded during the 1942 Kharkov campaign he hoped that the resulting heavy losses inflicted on the Red Army would give the Wehrmacht time to recover its strength However the Soviet anticipation of the attack led to extensive losses on both sides as Soviet anti tank mines and fierce fighting pushed the Germans back liberating the German held Orel in the process Focusing on the northern front of the battle with Generaloberst Walter Model's forces pitted against General Rokossovsky's Central Front between 5 July and 18 August this volume will explore both the German offensive and the Soviet counteroffensive Using documents from both sides extensive photographs both contemporary and modern maps and bird's eye views this title will shed new light on this often ignored part of the battle **Kursk 1943** Robert

Forczyk, 2017-03-21 Mauled at Stalingrad the German army looked to regain the initiative on the Eastern Front with a huge offensive launched near the city of Kursk 280 miles south west of Moscow Armed with the new Panther tank Hitler and Field Marshal von Manstein were confident that they could inflict another crushing defeat on the Soviet Union What they did not know is that the Soviets knew about the coming attack and they were ready This book focuses on the southern front of this campaign which featured one of the biggest clash of armour of the war in the battle of Prokhorovka which involved over a thousand tanks It examines in detail the tactics and mistakes of the army commanders as they orchestrated one of the bloodiest battles in World War II Using campaign maps stunning photographs and vivid artwork this new study a companion to Campaign 272 Kursk 1943 The Northern Front examines whether that the German offensive was doomed from the start as it takes the reader through this titanic clash of armour The Panzers of Prokhorovka Ben Wheatley, 2023-06-08 A ground

breaking new study that transforms our understanding of one of the most famous battles of the Second World War widely mythologized as the largest tank battle in history Today in Russia there are three official sacred battlefields Kulikovo where the Mongols were defeated in 1380 Borodino where Russian troops slowed Napoleon's Grande Armée before Moscow in 1812 the third is Prokhorovka where the Soviet annihilation of Hitler's elite SS Panzer force on 12 July 1943 in the largest armoured clash in history has traditionally been described as a key turning point in the war The Panzers of Prokhorovka challenges this narrative The battle was indeed an important Soviet victory but a very different one to that described above Based on ground breaking archival research and supported by previously unpublished images of the battlefield Ben Wheatley argues that German armoured losses were in fact negligible and a fresh approach is required to understand Prokhorovka This book tackles the many myths that have built up over the years and presents a new analysis of this famous engagement

History's Greatest Tank Battle World History,2024-10-08 By 1943

Adolf Hitler had realised that the German Army was no longer capable of fighting an offensive war. The army was short of men, guns and tanks, and the Luftwaffe could not afford to lose more aircraft. Consequently, when Hitler flew to his forward headquarters in Ukraine in February 1943, he brought with him a clear message: the German Army would no longer go on the offensive. For the next year, it would instead defend its positions and let the Red Army exhaust itself in futile attacks. As we know, that's not how history turned out. At the meeting in Ukraine, Hitler's generals identified a vulnerable spot on the front line where hundreds of thousands of enemies could be captured and the Soviets weakened before they launched their summer offensive. After weeks of deliberation, the Führer was persuaded to make a fateful decision. All forces were to be deployed to the front line salient where they would trap the Red Army near the city of Kursk, 500 kilometres southwest of Moscow. For the next few months, both the German Army and the Red Army staked everything on winning the coming Battle of Kursk. Soviets in their thousands built impenetrable defensive lines, while German units transported newly developed Tiger tanks and Wespe Wasp guns by the hundreds to the front line. Finally, on 5th July 1943, Soviet artillery shattered the silence of the balmy Russian summer night. The Battle of Kursk was underway, and the winner of World War II would be decided during the following week's engagements.

[The War Aims and Strategies of Adolf Hitler](#) Oscar Pinkus, 2005-06-29

Many have commented upon Hitler's inexplicable behavior during World War II. He failed to invade England; he neglected his air force; he engaged enemies on multiple fronts. Viewed in terms of Germany's struggle against the West, these and other actions made little sense. In truth, however, the war against Western powers had little to do with Hitler's grand plan to conquer Russia and lands to the east of Germany, eradicate or enslave their populations, and create a vast Teutonic empire. In light of this goal, Hitler's actions were consistent throughout. In line with his dictum of All or Nothing, once Hitler failed to defeat Russia in December 1941, he conducted the rest of the war with the sole purpose of inflicting maximum bloodshed and desolation, including upon Germany itself. Weakened, sensing defeat, he knew he was a drowning man, and he was determined to take friend and foe alike down with him. This evaluation of Hitler's objectives in World War II expands upon a theory gaining prominence among historians: Hitler's true motive was a crusade against the East, and he had little interest in waging war with England, much less the United States. It examines the different nature of the war on the Eastern and Western fronts, the disparate treatment afforded the two groups of POWs and civilians, and Hitler's scorched earth policy adopted after his primary objective proved beyond his grasp. In poignant, painful detail, it recreates the Russians' devastating four-year struggle against Germany, which went much further towards ensuring its defeat than any of the comparatively belated Western efforts.
