Whose History Counts June Bam, Lungisile Ntsebeza, Allan Zinn, 2018-11-29 Originally planned as a fact based book on the pre colonial history of the Eastern Cape in the true tradition of history this ground breaking book focuses on epistemological and foundational questions about the writing of history and whose history counts Whose History Counts challenges the very concept of pre colonial and explores methodologies on researching and writing history The reason for this dramatic change of focus is attributed in the introduction of the book to the student led rebellion that erupted following the RhodesMustFall campaign which started at the University of Cape Town on 9 March 2015 Key to the rebellion was the students opposition to what they dubbed colonial education and a clamour for among others a decolonised curriculum This book is a direct response to this clarion call

Durban, a Cogent African City Anna Irene Del Monaco, Jian Liu, Yashaen Luckan, Belula Tecle Misghina, 2018-04-30 The city of Durban is one of the most intriguing for architects and urban designers due to its cultural and economic diversity on one the hand and its political evolution since its colonial formalisation apartheid influences and its post apartheid evolution on the other It is a city that expresses complex narratives in architectural form and expression seemingly chaotic yet within and upon a cogent overall structure Perhaps it is that very cogency in urban structure which facilitated its complex evolution or perhaps not This paradox forms the crux of the studies and applied research part of this book and which defined the sites of focus for a collaborative studio workshop Durban is a modern city which expresses the complex dynamics of an African city emerging from a historically colonial foundation This provided an interesting context for engagement of the UNESCO Chair for Sustainable Urban Quality and Culture notably in Africa The institutional agreement between the UNESCO Chair Sapienza University of Rome and the Durban University of Technology DUT was formalised in the year 2013 prior to an international workshop in China and the UIA 2014 in Durban South Africa The focus of the Chair and the curriculum outcomes of DUT with regard to urban culture and the evolution thereof created a mutually opportune association with the possibility for contribution to the UIA 2014 conference in Durban After deliberations and the necessary paperwork the UNESCO Chair in Association with DUT were granted official space on the UIA Programme for presentation at the conference This was received with much enthusiasm which drew further interest and participation from students and Professors of Sapienza University of Rome and Tsinghua University of Beijing in China Further representation of academics from Manipal University in India School of Architecture University of Florida and Hosei University in Japan added much value to the collaboration in Durban

Tribing and Untribing the Archive Carolyn Hamilton, Nessa Leibhammer, 2016 These volumes track how the domain of the tribal and traditional was marked out and came to be sharply distinguished from modernity how it was denied a changing history and an archive and was endowed instead with a timeless culture These volumes also offer strategies for engaging with the materials differently from the interventions effected in contemporary artworks to the inserting of nameless timeless objects of material culture into histories of individualized and politicized experience Publisher's description

Making Public in a Privatized World David A. McDonald, 2016-02-15 How do we provide effective public services in a deeply neoliberal world In the wake of the widespread failure of privatisation efforts societies in the global south are increasingly seeking progressive ways of recreating the public sector With contributors ranging from cutting edge scholars to activists working in health water and energy provision and with case studies covering a broad spectrum of localities and actors Making Public in a Privatized World uncovers the radically different ways in which public services are being reshaped from the grassroots up From communities holding the state accountable for public health in rural Guatemala to waste pickers in India and

decentralized solar electricity initiatives in Africa the essays in this collection offer probing insights into the complex ways in which people are building genuine alternatives to privatization while also illustrating the challenges which communities face in creating public services which are not subordinated to the logic of the market or to the monolithic state entities of the past
