**Life After Death** Farnáz Ma'súmián,2002 What happens to us when we die Does a part of us conquer death and live a different existence Will we have an encounter with a creator What is the soul Where are heaven and hell Questions such as these about death and dying have intrigued humanity since the dawn of time *Life After Death* explores these questions in detail by providing a general overview from the scriptures of seven world religions Hinduism Zoroastrianism Judaism Buddhism Christianity Islam and the Bah Faith *Beyond the Threshold* Christopher M. Moreman,2017-09-13 *Beyond the Threshold* introduces readers to afterlife beliefs and experiences in world religions The second edition has been revised and updated throughout including a new chapter on afterlife beliefs and practices in selected African traditions new research on the afterlife and near death experiences the addition of key words and definitions to each chapter and more Christopher M Moreman offers an introduction to afterlife beliefs in ancient cultures which are essential to understanding the roots of many modern ideas about death He examines the folklore and doctrines of major world religions including Judaism Christianity Islam Hinduism Buddhism Chinese religions and several African traditions He also discusses psychic phenomena across traditions such as mediums near death and out of body experiences and past life memories While ultimately the afterlife remains unknowable the second edition of this unique in depth exploration of both beliefs and experiences can help readers reach their own understanding of the afterlife and how to live *Life After Death in World Religions* Harold G. Coward,1997 Experts from six traditions Judaism Christianity Islam Hinduism Buddhism and Chinese religions discuss rituals practices and emotions as they relate to death and the hope of life that follows death **Life After Death** Alan Segal,2010-06-23 A magisterial work of social history *Life After Death* illuminates the many different ways ancient civilizations grappled with the question of what exactly happens to us after we die In a masterful exploration of how Western civilizations have defined the afterlife Alan F Segal weaves together biblical and literary scholarship sociology history and philosophy A renowned scholar Segal examines the maps of the afterlife found in Western religious texts and reveals not only what various cultures believed but how their notions reflected their societies realities and ideals and why those beliefs changed over time He maintains that the afterlife is the mirror in which a society arranges its concept of the self The composition process for Judaism Christianity and Islam begins in grief and ends in the victory of the self over death Arguing that in every religious tradition the afterlife represents the ultimate reward for the good Segal combines historical and anthropological data with insights gleaned from religious and philosophical writings to explain the following mysteries why the Egyptians insisted on an afterlife in heaven while the body was embalmed in a tomb on earth why the Babylonians viewed the dead as living in underground prisons why the Hebrews remained silent about life after death during the period of the First Temple yet embraced it in the Second Temple period 534 B C E 70 C E and why Christianity placed the afterlife in the center of its belief system He discusses the inner dialogues and arguments within Judaism and Christianity showing the underlying dynamic behind them as well as the

ideas that mark the differences between the two religions In a thoughtful examination of the influence of biblical views of heaven and martyrdom on Islamic beliefs he offers a fascinating perspective on the current troubling rise of Islamic fundamentalism In tracing the organic historical relationships between sacred texts and communities of belief and comparing the visions of life after death that have emerged throughout history Segal sheds a bright revealing light on the intimate connections between notions of the afterlife the societies that produced them and the individual s search for the ultimate meaning of life on earth
