Life Orientation Grade12 2015:

Social Im/mobilities in Africa Joël Noret, 2019-11-08 Grounded in both theory and ethnography this volume insists on taking social positionality seriously when accounting for Africa's current age of polarizing wealth. To this end the book advocates a multidimensional view of African societies in which social positions consist of a variety of intersecting social powers or capitals including wealth, education, social relationships, religion, ethnicity and others. Accordingly the notion of social im/mobilities emphasizes the complexities of current changes taking us beyond the prism of a one-dimensional social ladder for social moves cannot always be apprehended through the binaries of gains and losses. *Quality Physical Education* Walter Ho, 2025-05-07 This book represents the culmination of a two-decade effort to describe, define and measure quality physical education (QPE). Presenting in-depth research and analysis from 24 countries across five continents it offers a truly comparative analysis that shines important new light on policy and practice in contemporary physical education. Opening with an introduction that explores the concept of quality in relation to education and that traces the history of the QPE project, the book then presents country-specific chapters that drill down into the evidence. Each chapter outlines the geographical, political, economic, cultural and demographic background of that country and analyses the development of physical education, sport education and school-based physical activity as well as the contemporary situation regarding equity, teaching quality, professional training and curriculum development. Each chapter then offers an assessment of the eight factors that constitute the QPE index including skill development, facilities, accessibility, cultural practices, governmental input, cognitive skill development and habituated behaviour. With a global reach this book is an invaluable resource for policymakers, curriculum coordinators, administrators, teachers and researchers looking to better understand the enablers and barriers to developing QPE and to develop evidence-based strategies and interventions for promoting and implementing QPE. **Annual Review of Comparative and International Education 2017** Alexander W.
