7th International Conference on Tourism Research Prof Rishi Balkaran, Dr Chris Hattingh, 2024-03-18 These proceedings represent the work of contributors to the 7th International Conference on Tourism Research ICTR 2024 hosted by the Centre for Tourism Research in Africa at the Cape Town Hotel School Cape Peninsula University of Technology South Africa on 18-19 March 2024. The Conference Chair is Prof Rishi Balkaran and the Programme Chair is Dr Chris Hattingh, both from Cape Peninsula University of Technology CPUT South Africa. ICTR is a well-established event on the academic research calendar and now in its 7th year, the key aim remains the opportunity for participants to share ideas and meet the people who hold them. The scope of papers will ensure an interesting two days. The subjects covered illustrate the wide range of topics that fall into this important and ever-growing area of research. Today more than ever there is a need for research and scientific guidance as the tourist sector struggles to cope with the consequences of the Covid-19 pandemic, inflation, socio-political turbulences, climate change, and disaster risk.

Social Im/mobilities in Africa Joël Noret, 2019-11-08 Grounded in both theory and ethnography, this volume insists on taking social positionality seriously when accounting for Africa's current age of polarizing wealth. To this end, the book advocates a multidimensional view of African societies in which social positions consist of a variety of intersecting social powers or capitals, including wealth, education, social relationships, religion, ethnicity, and others. Accordingly, the notion of social im/mobilities emphasizes the complexities of current changes, taking us beyond the prism of a one-dimensional social ladder for social moves cannot always be apprehended through the binaries of gains and losses.

The Silenced Child Dr. Tanya Robinson, 2015-03-28 The Silenced Child is based on Dr Robinson's experiences. It is not based on specific cases but a compilation of spellbinding experiences that were put together to create this book to give the child a voice. It is based on facts but no one patient's case was used to portray these attention-grabbing stories. It was various fascinating experiences that were put together to explain what children go through during daily life. This book reads as a journey of what children have gone through and is a collection of enthralling stories that shows the trauma our society is letting our children live by. The book has been written to be an easy, non-complicated read that holds the reader by mesmerizing the reader with powerful stories about children's pain and suffering. The intensity is balanced with how Dr Robinson, from a young student to a well-known name in the field of psychology, had to cope with what she was faced with on a daily basis, starting as a 17-year-old student at Stellenbosch University and through her years of therapy in private practice.
