Makerere University Admission List 2015 2016 Private:

Intra-Africa Student Mobility in Higher Education Chika Trevor Sehoole, Jenny J. Lee, 2022-01-01 This book examines student mobility within Africa International student mobility is among the central activities of higher education internationalization As the number of international students increase so do the destinations in both number and geographic diversity Historically international student mobility has followed South North and North North patterns However recent literature show the growth in North South and South South patterns of student mobility There has also been a rise in regional mobility In what is referred to in the book as intra Africa mobility the books explores and analyzes the patterns of intra Africa mobility based on seven African countries South Africa Kenya Uganda Nigeria Ghana Senegal and Egypt The editors and contributors address three central research questions Why did the students choose the country they are studying in Why did they choose the institution they are studying in What are their academic and social experiences in these countries and their respective institutions This book is the first comprehensive exploration of intra Africa student mobility in a field that traditionally centers on the Global North

Sharing Higher Education's Promise beyond the Few in Sub-Saharan Africa Peter Darvas, Shang Gao, Yijun Shen, Bilal Bawany, 2017-11-15 Despite a spectacular expansion of the higher education sector in Sub Saharan Africa the supply of tertiary education has generally failed to keep pace with demand and the region continues to lag all other regions in terms of access to tertiary education This is in part a consequence of deeply entrenched patterns of inequitable access to higher education and the perpetuation of what researchers refer to as elite systems To date access to tertiary education in Sub Saharan Africa has unduly benefitted students drawn from the region's wealthiest households and overall enrollment remains disproportionately male and metropolitan These factors stifle the catalytic potential of higher education corroding its potential for driving economic growth and sustaining poverty reduction Instead patterns of access to tertiary education have generally reinforced and reproduced social inequality instead of eroding its pernicious social and economic effects This report aims to inform an improved understanding of equity in tertiary enrollment in Sub Saharan African countries and to examine the extent to which inequity functions as a bottleneck inhibiting the ability of African universities to effectively drive improvements in overall quality of life and economic competitiveness In our survey of the evidence we also aim to identify which policies most effectively address the challenge of promoting equity of access in SSA tertiary education systems In order to achieve these objectives the report collects generates and analyzes empirical evidence on patterns of equity examines the underlying causes of inequity and evaluates government policies for addressing inequity
