Makererere University Private List 2015 2016:

National Child-focused Policy Research Agenda 2016-2020, 2016 *Investor and Stakeholder Perception Survey, 2014-2015*, 2015 *India-Africa Economic Relations in the New Global Economy* Rick Rowden, 2025-03-18 While there have been many books about China's growing economic role in Africa this book explores the much less well known story of India's growing economic role in Africa. And like the big debates about China's role in Africa this book similarly asks if India is acting as a helpful development partner in Africa, an exploitative new colonizer or if the answer ultimately has to do with the degree of agency exercised by African governments. While the book documents the significant increase in Indian aid, trade and FDI in Africa in the new millennium it also offers much more. It comprehensively looks at theories of economic development, the debates about the role of trade and industrial policies in economic development, strategies, colonial and post colonial literature and controversial features of today's global political economy as the background to study Africa and frames Africa India economic relations in these broad contexts. The book reviews the history of India's diplomacy, trade and investment in African countries since decolonization with a focus on the increased economic ties of the past two decades. The main question examined is about the longterm impact that India's economic relations are having in African economies and if India is helping Africa to successfully develop over time or not. The author examines India's economic and strategic interests in the African region and offers a comparative analysis of Africa's trade with India, China, the European Union and other African nations. The book also explores a number of outstanding issues in India Africa relations today such as Africa's role as a source of oil, gas and critical minerals needed by India, the lifesaving role of Indian generic medicines across the continent, the nature of the agricultural development model that India is introducing in Africa and key areas where Indian and African governments are cooperating in the international arena. The book offers a critical and in depth look into the partnerships India has developed with African countries and contributes to the debate on economic relations between a more developed emerging market like India and less developed countries. A major contribution to the emerging area of South South economics, this book part of the Critical Political Economy of South Asia series will be useful for scholars and researchers of economics, development economics, development studies, public policy, diplomacy, African studies, political economy, South Asian economics and international politics and trade.

Ugandan English Christiane Meierkord, Bebwaa Isingoma, Saudah Namyalo, 2016-10-20 Ugandan English is a variety that has scarcely been noticed in past research. This timely volume brings together African and European scholars in a first ever collection of articles that offer comprehensive discussions of the historical and present day sociolinguistics of English in Uganda and fine grained analyses of the structural characteristics of and attitudes to this hitherto largely unknown variety. Using rich archive corpus and interview data as well as ethnographic and observational methods the various contributions paint a comprehensive picture of Ugandan English as distinct from other East African Englishes and as characterized by nativisation despite a still strong exonormative orientation reflecting the modern nation's

status as a post protectorate under the influence of globalisation Apart from advancing our understanding of Ugandan English itself the individual chapters contribute to theoretical debates on language contact and variation as regards the influence of substrate languages founder populations language ideologies and socio economic factors **Parliamentary Debates** Great Britain.
