Making Yugoslavs Identity In King Aleksandar S Yugoslavia:

Making Yugoslavs Christian Axboe Nielsen, 2014-01-01 Christian Axboe Nielsen uses extensive archival research to explain the failure of King Aleksandar's dictatorship's program of forced nationalization in the interwar era

A Transnational History of Forced Migrants in Europe Bastiaan Willems, Michal Adam Palacz, 2022-08-11 This book is a vital exploration of the harrowing stories of mass displacement that took place in the first half of the 20th century from the perspective of forced migrants themselves. The volume brings together 15 interrelated case studies which show how the deportation, evacuation and flight of millions of people as a result of the First World War intensified rather than alleviated ethnic conflicts which culminated in population transfers on an even larger scale during and immediately after the Second World War. While each chapter focuses on a different group of refugees and displaced persons, the text as a whole looks at the experience of forced migration as a complex set of evolving relationships with the receiving society, the homeland, the broader diaspora and other migrant communities living within the same host country. This innovative four-dimensional model provides an overarching conceptual framework that binds the chapters together within the longer arc of European history. By going beyond the conventional narratives of national victimhood and unsuccessful assimilation of refugees, *A Transnational History of Forced Migrants in Europe* reveals that identities of forced migrants in the first half of the 20th century were individualised, hybrid and constantly reconstructed in response to socioeconomic forces and political pressures. The case studies collected in this volume further suggest that age, gender, social class, educational level and the personal experiences of unwilling nomads are more important to the understanding of forced migration history than ethno-religious identities of victims and perpetrators.

Conservatives and Right Radicals in Interwar Europe Marco Bresciani, 2020-12-30 This book features a broad range of thematic and national case studies which explore the interrelations and confrontations between conservatives and the radical Right in the European and global contexts of the interwar years. It investigates the political, social, cultural and economic issues that conservatives and radicals tried to address and solve in the aftermaths of the Great War. Conservative forces ended up prevailing over far-right forces in the 1920s, with the notable exception of the Fascist regime in Italy. But over the course of the 1930s and the ascent of the Nazi regime in Germany, political radicalisation triggered both competition and hybridisation between conservative and right-wing radical forces, with increased power for far-right and fascist movements. The book will be of great interest to students and scholars of politics, history, fascism and Nazism.

Yugoslavia in the Shadow of War John Paul Newman, 2015-06-25 A study of the impact of the Great War on state and society in Yugoslavia during the interwar period. John Paul Newman examines its effects through the men who took part in the war, both those who served in the Serbian army and those who fought in the Austro-Hungarian army.

Czechoslovakism Adam Hudek, Michal Kopeček, Jan Mervart, 2021-09-30 This collection systematically approaches the concept of Czechoslovakism and its historical progression, covering the time span from the mid-nineteenth century to

Czechoslovakia's dissolution in 1992-1993 while also providing the most recent research on the subject Czechoslovakism was a foundational concept of the interwar Czechoslovak Republic and it remained an important ideological, political, and cultural phenomenon throughout the twentieth century. As such, it is one of the most controversial terms in Czech, Slovak, and Central European history. While Czechoslovakism was perceived by some as an effort to assert Czech domination in Slovakia, for others it represented a symbol of the struggle for the Republic's survival during the interwar and Second World War periods. The authors take care to analyze Czechoslovakism's various emotional connotations; however, their primary objective is to consider Czechoslovakism as an important historical concept and follow its changes through the various cultural, political, and social contexts spanning from the mid-nineteenth century to the breakup of Czechoslovakia in 1993. Including the work of many of the most eminent Czech and Slovak historians, this volume is an insightful study for academic and postgraduate student audiences interested in the modern history of Central and Eastern Europe, nationality studies, as well as intellectual history, political science, and sociology.
