*International Handbook of Mathematical Learning Difficulties* Annemarie Fritz, Vitor Geraldi Haase, Pekka Räsänen, 2019-01-30 This comprehensive volume provides teachers researchers and education professionals with cutting

edge knowledge developed in the last decades by the educational behavioural and neurosciences integrating cognitive developmental and socioeconomic approaches to deal with the problems children face in learning mathematics The neurocognitive mechanisms and the cognitive processes underlying acquisition of arithmetic abilities and their significance for education have been the subject of intense research in the last few decades but the most part of this research has been conducted in non applied settings and there s still a deep discrepancy between the level of scientific knowledge and its implementation into actual educational settings Now it s time to bring the results from the laboratory to the classroom Apart from bringing the theoretical discussions to educational settings the volume presents a wide range of methods for early detection of children with risks in mathematics learning and strategies to develop effective interventions based on innovative cognitive test instruments It also provides insights to translate research knowledge into public policies in order to address socioeconomic issues And it does so from an international perspective dedicating a whole section to the cultural diversity of mathematics learning difficulties in different parts of the world All of this makes the International Handbook of Mathematical Learning Difficulties an essential tool for those involved in the daily struggle to prepare the future generations to succeed in the global knowledge society **Nehanda** Mwale, Nelly ,Gabaitse, Rosinah,Kobo, Fundiswa,Tembo, Dorothy,2024-07-01

*Knowledge for a Sustainable World* Tor Halvorsen,Hilde Ibsen,2015-12-07 The search for answers to the issue of global sustainability has become increasingly urgent In the context of higher education many universities and academics are seeking new insights that can shift our dependence on ways of living that rely on the exploitation of so many and the degradation of so much of our planet This is the vision that drives SANORD and many of the researchers and institutions within its network Although much of the research is on a relatively small scale the vision is steadily gaining momentum forging dynamic collaborations and pathways to new knowledge The contributors to this book cover a variety of subject areas and offer fresh insights about chronically under researched parts of the world Others document and critically reflect on innovative approaches to cross continental teaching and research collaborations This book will be of interest to anyone involved in the transformation of higher education or the practicalities of cross continental and cross disciplinary academic collaboration The Southern African Nordic Centre SANORD is a network of higher education institutions from Denmark Finland Iceland Norway Sweden Botswana Namibia Malawi South Africa Zambia and Zimbabwe Universities in the southern African and Nordic regions that are not yet members are encouraged to join **Teachers for Rural Schools** World Bank,2008 Achieving universal primary education and Education for All EFA is one of the development priorities within the context of the millennium development goals In many Sub Saharan African countries one of the key challenges is to provide good quality basic education to the 10 20 percent of primary school age children who are still out of school Among these out of school children the most difficult to reach are living in rural and remote areas In recent years large investments have greatly improved school infrastructure and access but finding effective ways of supplying teachers to schools in rural and

remote areas remains a key policy concern To examine the issues related to providing teachers for rural schools five countries Lesotho Malawi Mozambique Tanzania and Uganda prepared national case studies and along with representatives from Zambia came together for a workshop on policy planning and management of rural primary school teachers in Lesotho in May 2005 Building on the national reports this workshop considered the challenges of teacher provision in rural areas and examined the viable policy options

*Building Resilient Healthcare Systems With ICTs* Ndayizigamiye, Patrick, Kante, Macire, 2022-03-11 One of the challenges encountered in the provision of healthcare is the inability of healthcare systems to adapt to or respond adequately to adverse events pandemics or otherwise especially in settings with limited resources ICTs can be built into healthcare systems to detect and or mitigate adverse events The COVID 19 pandemic has showcased the opportunities that are brought forth by ICTs such as the adoption of online consultations by doctors and other innovative ways of providing healthcare despite public health regulations travel restrictions and fears tied to physical appointments Beyond the COVID 19 era there is a need to reimagine how ICTs could be adopted in healthcare to ensure resilience in the advent of any of these future adverse events Building Resilient Healthcare Systems With ICTs highlights the various ways ICTs could assist in building resilience within healthcare systems and the various contexts in which resilience could be built within healthcare systems It portrays practical implications of and value derived from building resilience in healthcare systems Covering topics such as electronic health information systems multimodal representation and supply chain management this book is an essential resource for healthcare executives government officials researchers computer engineers and academicians
