Temple, 2020-04-01 Offers a new conceptual framework rooted in mythological analysis to ground the field of Africana cultural memory studies Black Cultural Mythology retrieves the concept of mythology from its Black Arts Movement origins and broadens its scope to illuminate the relationship between legacies of heroic survival cultural memory and creative production in the African diaspora Christel N Temple comprehensively surveys more than two hundred years of figures moments ideas and canonical works by such visionaries as Maria Stewart Richard Wright Colson Whitehead and Edwidge Danticat to map an expansive yet broadly overlooked intellectual tradition of Black cultural mythology and to provide a new

conceptual framework for analyzing this tradition In so doing she at once reorients and stabilizes the emergent field of Africana cultural memory studies while also staging a much broader intervention by challenging scholars across disciplines from literary and cultural studies history sociology and beyond to embrace a more organic vocabulary to articulate the vitality of the inheritance of survival This book not only offers a new and exciting theoretical concept it also applies that concept to texts in unique and different ways With this theoretical lens we can read and see texts memories and ideas in new ways The author examines an almost dizzying array of cultural and historical moments scholars artists and activists and provides new lenses through which to read them as well This is a brilliant and much needed addition to the academic and cultural conversation

Beyond Black and White Manning Marable, 1995 A generation removed from the Civil Rights Movement and the Black Power explosion of the 1960s the pursuit of racial equality and social justice for African Americans seems more elusive than ever The realities of contemporary black America capture the nature of the crisis life expectancy for black males is now below retirement age median black income is less than 60 per cent that of whites over 600 000 African Americans are incarcerated in the US penal system 23 per cent of all black males between the ages of eighteen and 29 are either in jail on probation or parole or awaiting trial At the same time affirmative action programs and civil rights reforms are being challenged by white conservatism Confronted with a renascent right and the continuing burden of grotesque inequality Manning Marable argues that the black struggle must move beyond previous strategies for social change The politics of black nationalism which advocates the building of separate black institutions is an insufficient response The politics of integration characterized by traditional middle class organizations like the NAACP and Urban League seeks only representation without genuine power Instead a transformationist approach is required one that can embrace the unique cultural identity of African Americans while restructuring power and privilege in American society Only a strategy of radical democracy can ultimately deconstruct race as a social force

Beyond Black and White brilliantly dissects the politics of race and class in the US of the 1990s Topics include the Clarence Thomas Anita Hill controversy the factors behind the rise and fall of Jesse Jackson's Rainbow Coalition Benjamin Chavis and the conflicts within the NAACP and the national debate over affirmative action Marable outlines the current debates in the black community between liberals Afrocentrists and the advocates of social transformation He advances a political vision capable of drawing together minorities into a majority which can throw open the portals of power and govern in its own name
