## **Male Chastity Meaning:**

Rape and the Rise of the Author Amy Greenstadt, 2016-04-08 Contending that early modern fictional portrayals of sexual violence identify the position of the author with that of the chaste woman threatened with rape Amy Greenstadt challenges the prevalent scholarly view that this period's concept of The Author was inherently masculine Instead she argues the analogy between rape and writing centrally informed ideas of literary intention that emerged during the English Renaissance Analyzing works by Milton Sidney Shakespeare and Cavendish Greenstadt shows how the figure of The Author and by extension ideas of the modern individual derived from a paradigm of female virtue and vulnerability This volume supplements the growing body of studies that address the relationship between early modern textual representation and notions of gender and sexuality it also adds a new dimension in considering the wider origins of modern concepts of selfhood and individual rights

The Futility of Philosophical Ethics James Kirwan, 2022-02-24 The Futility of Philosophical Ethics puts forward a novel account of the grounds of moral feeling with fundamental implications for philosophical ethics It examines the grounds of moral feeling by both the phenomenology of that feeling and the facts of moral feeling in operation particularly in forms such as moral luck vicious virtues and moral disgust that appear paradoxical from the point of view of systematic ethics Using an analytic approach James Kirwan engages in the ongoing debates among contemporary philosophers within metaethics and normative ethics Instead of trying to erase the variety of moral responses that exist in philosophical analysis under one totalizing system Kirwan argues that such moral theorizing is futile His analysis counters currently prevalent arguments that seek to render the origins of moral experience unproblematic by finding substitutes for realism in various forms of noncognitivism In reasserting the problematic nature of moral experience and offering a theory of the origins of that experience in unavoidable individual desires Kirwan accounts for the diverse manifestations of moral feeling and demonstrates why so many arguments in metaethics and normative ethics are necessarily irresolvable
