The logistics context Vadims Kolmogorovs,2006-10-28 Bachelor Thesis from the year 2006 in the subject Business economics Supply Production Logistics grade 2 University of Applied Sciences Osnabr ck language English abstract Supply Chain Management SCM is a management concept aimed at organising and optimising the complete value chain from sourcing raw materials to the final customer regardless of organisational boundaries In recent years the strategy of concentrating on core competencies of companies led to a vertical disintegration of processes along the value chain Practical experience shows that companies focusing on their core competencies in first turn outsource logistics operations within their supply chain management to external service providers Outsourcing is defined as the practice of buying goods and services from outside suppliers rather than producing them within a firm Harvard Business Review HBR the popular management journal recently listed outsourcing as one of the most influential concepts coined in the last 75 years A fundamental question to ask in this work is whether outsourcing is really value enhancing and in particular whether the firm that undertakes outsourcing becomes more efficient as a result In the context of this work the degree of efficiency will be addressed by analysing the input side as labour costs and capital for initial investments It will be shown that in an attempt to increase efficiency by reducing expenses and turning fixed costs into variable costs companies pursue restructuring procedures that include outsourcing of non core activities to specialists having a lower cost base due to better economies of scale and scope In addition efficiency may also be improved because adjusting output to variations in demand and maintaining the quality of inputs may be easier via enforcing contracts with outside suppliers than in dealing with a strongly unionized internal workforce Subject Guide to Children's Books in Print 1997 Bowker Editorial Staff,R R Bowker Publishing,1996-09 **Management Accounting** ,1920
