Debating Modern Medical Technologies Karen J. Maschke, Michael K. Gusmano, 2018-09-14 This book analyzes policy fights about what counts as good evidence of safety and effectiveness when it comes to new health care technologies in the United States and what political decisions mean for patients and doctors Medical technologies often promise to extend and improve quality of life but come with many questions Are they safe and effective Are they worth the cost When should they be allowed on the market and when should Medicare Medicaid and private insurance companies be required to pay for drugs devices and diagnostic tests Using case studies of disputes about the value of mammography screening genetic testing for disease risk brain imaging technologies to detect biomarkers associated with Alzheimer s disease cell based therapies and new expensive drugs Maschke and Gusmano illustrate how scientific disagreements about what counts as good evidence of safety and effectiveness are often swept up in partisan fights over health care reform and battles among insurance and health care companies physicians and patient advocates Debating Modern Medical Technologies The Politics of Safety Effectiveness and Patient Access reveals stakeholders differing values and interests regarding patient choice physician autonomy risk assessment government intervention in medicine and technology assessment and scientific innovation as a driver of national and global economies It will help readers to understand the nature and complexity of past and current policy disagreements and their effects on patients

Education for Sustainable Development and Disaster Risk Reduction Rajib Shaw, Yukihiro Oikawa, 2014-08-06 Education for Sustainable Development ESD and Disaster Risk Reduction Education DRRE have overlapping areas of concern focusing on strengthening the link to local communities In reality there is significant synergy in ESD and disaster risk reduction DRR Both concepts urge looking at the communities both focus on behavior changes and both call for linking knowledge to action The Decade of Education for Sustainable Development DESD ends in 2014 and the Hyogo Framework for Action HFA ends in 2015 Therefore at this junction it is important to review the progress made over the past 10 years and to suggest future synergy options This book is the first attempt to review these two

emerging fields and to provide input to the future direction of education The book has 11 chapters drawing lessons mainly from Japan and discussing their implications for the world The first four chapters provide an overview of the ESD DRR linkage ESD and its evolution DRRE and Climate Change Education These are followed by case studies from ESD practices in Japan in schools universities and communities The primary target groups for this book are students and researchers in the fields of environment disaster risk reduction and climate change studies The book provides them with a good idea of the current research trends in the field and furnishes basic knowledge about these vital topics Another target group comprises practitioners and policy makers who will be able to apply the knowledge collected here to establishing policy and making decisions
