Reframing the Curriculum Susan Santone, 2018-09-03 *Reframing the Curriculum* is a practical hands-on guide to weaving the concepts of healthy communities, democratic societies and social justice into academic disciplines. Developed for future and practicing teachers, this volume is perfect for teacher education courses in instructional design, social foundations and general education as well as for study in professional learning communities. The author outlines the philosophies, movements and narratives shaping the future both in and out of classrooms and then challenges readers to consider the larger story and respond with curriculum makeovers that engage students in solving problems in their schools, communities and the larger world. The book's proven method for designing units gives educators across grades and disciplines the tools to bring sustainability and social justice into experiential, project-based instructional approaches. Pedagogical features include specific examples and templates that offer readers a framework for reworking their units and courses while meeting required standards and incorporating innovative classroom practices. Activities and discussion questions that bring the content to life and establish ties with the curriculum. eResources including a Facilitator's Guide offering examples of fully developed units created with this model and an editable template for redesigning existing units.

The ASCRS Textbook of Colon and Rectal Surgery Scott R. Steele, Tracy L. Hull, Neil Hyman, Justin A. Maykel, Thomas E. Read, Charles B. Whitlow, 2021-11-20 This book serves as a valuable resource for surgeons and health care providers at all stages of their career caring for patients with colorectal disease. This edition provides all newly written chapters organized around the pillars of colorectal disease: perioperative including endoscopy, anorectal disease, benign disease including inflammatory bowel disease, malignancy, pelvic floor disorders and a miscellaneous section that covers aspects both inside and beyond the operating room. Chapters are formatted to follow that of a how-to manual as well as an algorithm-based guide to allow the reader to understand the thought process behind a proposed treatment strategy. By making use of evidence-based recommendations, each chapter includes not only background information and diagnostic/therapeutic guidelines but also provides operative technical details and perioperative tips and tricks that are utilized in the management of these complex surgical challenges. Chapters also include the assessment of risk and methods utilized to minimize perioperative complications. In addition, the book incorporates sections covering the medical and surgical therapies for abdominal, pelvic and anorectal disease. Written by experts in the field from around the world, *The ASCRS Textbook of Colon and Rectal Surgery* 4th Edition exposes the many critical gaps in our knowledge base and inspires the next generation to answer them through thoughtful and high-level scientific inquiry.

Reshaping Graduate Education Through Innovation and Experiential Learning Jenkins, Toby S., 2020-10-16 Discussions on the importance and impact of pedagogical practice on students as whole persons are often concentrated on the P-12 or undergraduate learning experience. In higher education, many institutions do an outstanding job of complicating the undergraduate classroom to include civic engagement.

community based learning education abroad social action and project based learning But what about the graduate classroom While there are indeed numerous graduate programs that push students to interact with strong meaningful difficult and sometimes harsh facts scholarship and ideologies the instructional methods have largely remained stagnant New methods of constructing deep and meaningful learning in graduate education is essential for the transformation and continued evolution of graduate school instruction Reshaping Graduate Education Through Innovation and Experiential Learning is a crucial reference book that offers practice based reflections on efforts to infuse creativity social action engaged learning or other creative interventions into the graduate classroom The book includes personal narratives that are grounded in pedagogical perspectives from graduate school instructors who share their experiences with innovative and transformative teaching practices The goal of the book is to encourage graduate school professors to engage social justice education as something to be experienced and practiced in their courses and not just as a concept to be studied As such the book covers topics such as self directed learning counseling and community mapping It is ideal for graduate level instructors in the field of education and other related social science areas as well as junior faculty as they establish a teaching practice or veteran faculty seeking creative transformation *Integrative Ophthalmology* Ningli Wang,2019-09-05

With the development of nature science and industrial technology more and more patients are benefitting from the rapid progress in ophthalmology as the use of new medicine and delicate surgical therapy has ensured them the chance to restore their sight However some problems have come up during its development of which the most serious one is the limitation of the ophthalmology Eyes are not isolated organs they are connected to our body and thus the general status of our body will affect the eyes function Therefore it is of great importance that the ophthalmologists see the big picture while dealing with the clinical problems Based on the above observations we put forward the concept of Integrative Ophthalmology and describe the ophthalmology related medical situations that are prone to be neglected in clinical practice in a bid to increase the awareness of doctors from all fields that a holistic view should be adopted in clinical practice and it is the patients that we are treating rather than the disease There are 9 parts in the book containing the concept of integrative ophthalmology intraocular and intracranial pressure gradient related diseases and the relationship between the different general status and eye disorders We do believe that the integrative ophthalmology is the key to the development of ophthalmology and hope readers can benefit from this book

Education in Vietnam Martin Hayden,Thi Le Tran,2024-08-02 Offering insights into the current and projected future state of the education system in Vietnam this edited volume is an authoritative sourcebook for scholars policy analysts academic staff and students Vietnam is well on its way to joining the dress circle of high achieving education nations in Asia International surveys of the academic aptitude and ability of the nation s youth consistently place it well above relevant regional and global averages This accomplishment is remarkable for a country with a gross domestic product per capita of only US 2 785 in 2020 The dynamics of Vietnam s national education system are comprehensively documented in the book
