Exploring Positive Psychology Erik M. Gregory, Pamela B. Rutledge, 2016-10-03 Looking for an introduction to positive psychology that offers real life examples This overview of the science of happiness supplies case studies from some of the world's most successful organizations and describes ways to experience the personal impact of this exciting scientific field Rather than focusing on treating what is wrong with a person positive psychology seeks to understand and foster the things that drive happiness creativity and emotional fulfillment This is a relatively new area of psychological study and this reference book presents the research and practice of positive psychology in an informative and accessible format Readers are given a history of the field its current applications and the future implications of this psychological discipline Case studies from companies such as The Body Shop Volvo Zappos and Google highlight the impact of positive psychology when it is applied in a modern business setting These case studies along with biographies of leaders in the field highlight each chapter and connect the dots between the empirical theory of positive psychology and its practice Readers also receive tools to apply the practices to their own lives

The International Handbook of Positive Psychology Edward C. Chang, Christina Downey, Hongfei Yang, Ingo Zettler, Mine Muyan-Yılık, 2022-02-02 This handbook discusses the latest findings from different fields of positive psychology from a global perspective by providing a coherent framework to get a better understanding of the development and practice of positive psychology It starts with the parameters of positive psychology and a summary of the historical rise of positive psychology both first wave and second wave of positive psychology in the US and its slow but steady growth on a global scale This handbook highlights the major contributions of positive psychologists across 17 major regions of the world on theory research assessment and Practice It discusses how positive psychology can progress human living in different countries and it shows the reasons why positive psychology has become an important source in research and education around the world
