**Asian Rhinos** Mohd. Khan bin Momin Khan, Nico J. van Strien, IUCN/SSC Asian Rhino Specialist Group, 1997 There are currently three species of Asian rhino the Indian or greater one horned Asian rhino the Javan or lesser one horned Asian rhino and the Sumatran or Asian two horned rhino Today all three are threatened with extinction and two the Sumatran rhino and Javan rhino critically so Although the Indian rhino is to be found in greater numbers than the other two the threats to this species nevertheless remain significant As in the case of the African rhinos the threats to the Asian

rhinos stem from poaching for the horn the primary demand for which is in traditional Chinese medicine but which is also a speculator s commodity in several consumer nations However a further threat to these animals is also posed by the destruction of their habitat Indeed two of these species inhabit the tropical rainforest which is being destroyed This action plan describes the major requirements for rhino conservation and describes some of the programmes which can and are being implemented to stem the threats to these species such as managed breeding and the in situ conservation of their habitats **Asian Rhinos** ,1989 *Rhino Poaching* Janina Naef,2016 Rhino horn is very popular in Asia as it is a status symbol and used as medicine That is one reason why the number of these animals is decreasing continuously In 2007 13 rhinos were poached in South Africa while in 2015 the number increased to 1175 rhinos This Matura Paper deals with problems of rhino poaching in South Africa It poses into the question if it is still possible to see rhinos in the future and examines what should be done to save this species from extinction Therefore 5 theses has been stated which consist of political financial protection measures and enlightenment of local and Asian people Thereby an interview has been conducted with a conservationist in addition to research in a volunteering project in South Africa regarding these theses The results prove the problems already stated If there are no changes in one of these problems the rhino doubtfully has a future
