Barragán Guide Federica Zanco, Ilaria Valente, 2002 The Barragán Guide presents architect Luis Barragán's constructed works to a larger public providing keys to his creative evolution and his cultural context Following the volume's itinerary through three Mexican cities Guadalajara Mexico City and Monterrey provides not only a chronological survey of Barragán's surviving work but also an interesting experience of three urban realities that constitute the basis of his architectural practice and the context of the work of his followers Born and raised in the provincial town of Guadalajara Barragán performed his first experiments there before moving to the more open and fertile creative environment of the capital where rapidly growing new neighborhoods provided a wealth of opportunities for an ambitious young architect It was on the outskirts of Mexico City that Barragán's vision of a new way of living at once modern and Mexican took shape in the late 1940s in the form of a sophisticated residential development known as Jardines del Pedregal The project won international acclaim and Barragán moved on to create a series of masterpieces his own house the houses built for the Prieto Lopez and Galvez families the monument known as Satellite Towers and the outstanding residential developments of Las Arboledas and Los Clubes are but a few examples of his singular way of dealing with nature and architecture as two key elements of the intimate relation between inside and outside between constructed and non constructed environments

Modern Architecture in Mexico City Kathryn E. O'Rourke, 2017-02-10 Mexico City became one of the centers of architectural modernism in the Americas in the first half of the twentieth century Invigorated by insights

drawn from the first published histories of Mexican colonial architecture which suggested that Mexico possessed a distinctive architecture and culture beginning in the 1920s a new generation of architects created profoundly visual modern buildings intended to convey Mexico's unique cultural character By midcentury these architects and their students had rewritten the country's architectural history and transformed the capital into a metropolis where new buildings that evoked pre-conquest colonial and International Style architecture coexisted Through an exploration of schools a university campus a government ministry a workers park and houses for Diego Rivera and Luis Barragán Kathryn O'Rourke offers a new interpretation of modern architecture in the Mexican capital showing close links between design evolving understandings of national architectural history folk art and social reform This book demonstrates why creating a distinctively Mexican architecture captivated architects whose work was formally dissimilar and how that concern became central to the profession

Modernity and the Architecture of Mexico Edward R. Burian, 2010-06-28 Since the mid 1970s there has been an extraordinary renewal of interest in early modern architecture both as a way of gaining insight into contemporary architectural culture and as a reaction to neoconservative postmodernism This book undertakes a critical reappraisal of the notion of modernity in Mexican architecture and its influence on a generation of Mexican architects whose works spanned the 1920s through the 1960s Nine essays by noted architects and architectural historians cover a range of topics from broad based critical commentaries to discussions of individual architects and buildings Among the latter are the architects Enrique del Moral Juan O'Gorman Carlos Obregón Santacilia Juan Segura Mario Pani and the campus and stadium of the Ciudad Universitaria in Mexico City Relatively little has been published in English regarding this era in Mexican architecture Thus *Modernity and the Architecture of Mexico* will play a groundbreaking role in making the underlying assumptions ideological and political constructs and specific architects' agendas known to a wide audience in the humanities Likewise it should inspire greater appreciation for this undervalued body of works as an important contribution to the modern movement
