For algebra-based Introductory Statistics Courses. This very popular text is written to promote student success while maintaining the statistical integrity of the course. The author draws on his teaching experience and background in statistics and mathematics to achieve this balance. Three fundamental objectives motivate this text: 1 to generate and maintain student interest thereby promoting student success and confidence; 2 to provide extensive and effective opportunity for student practice; 3 allowing for flexibility of teaching styles. Datasets and other resources where applicable for this book are available here. The Amphigeo Story Mark Roehrig, 2002

Amphibious vehicles were some of the first self-propelled vehicles ever created, going all the way back to 1805. The only factory produced amphibian was the Amphicar in the 60s. Just some of the facts about amphibians that are dispelled in *The Amphigeo Story*. Today more than ever, the world is ready for such a vehicle, one that you can drive around doing errands as well as tear down a boat ramp into the froth. *The Amphigeo* is for the masses: two-thirds of the planet is covered in water, and 70% of the world's population lives on the water or very near it. Why then should it be we have to own a boat and a car to take advantage of both mediums of transportation? Not anymore. Mark Roehrig has developed the simplest conversion ever conceived for putting a car into the water. His *Amphigeo* took just 5 months to build; his second would only take about 3 months. For now, he knows all the secrets and shortcuts, which is exactly what prompted him to write *The Amphigeo Story*. Now anyone can own an amphibious car at the lowest price ever imagined. In fact, the *Amphigeo* is just that: the world's best bargain in an amphibian. The *Amphigeo* makes use of many of the original parts, including engine, transmission, CV axles, steering, suspension, seats, dash, radiator, fans, fuel tank, and more. This car has changed his life everywhere he goes: crowds gather, the press and TV have loved doing the story. But Mark will tell you none of that surpasses driving in the water; it is his ultimate reward. And after 2 years, the *Amphigeo*'s design has proved reliable. If you're ready for the experience of a lifetime, this book is for you. You could build an *Amphigeo* or have one built, but owning one

will definitely put an end to the everyday doldrums Any car can drive into the water only a good one can drive out again
