Unconsciousness Between Phenomenology and Psychoanalysis Dorothée Legrand, Dylan Trigg, 2017-05-18 This book contains a series of essays that explore the concept of unconsciousness as it is situated between phenomenology and psychoanalysis A leading goal of the collection is to carve out phenomenological dimensions within psychoanalysis and equally to carve out psychoanalytical dimensions within phenomenology The book examines the nature of unconsciousness and the role it plays in structuring our sense of self It also looks at the extent to which the unconscious marks the body as it functions outside of experience as well as manifests itself in experience In addition the book explores the relationship between unconsciousness and language particularly if unconsciousness exists prior to language or if the concept can only be
