L'art L'argent Et La Mondialisation:

L'art, l'argent et la mondialisation Jean-Noël Bret, Nathalie Moureau, 2013-07-01 L'histoire de l'art et en particulier celle de l'art d'aujourd'hui ne peut se passer du regard et de l'analyse des économistes et des sociologues seuls susceptibles de nous éclairer sur les contextes économiques et sociaux qui constituent le cadre et les conditions mêmes de la création. À leur analyse et leur réflexion sont associées dans cet ouvrage celles de philosophes d'un critique d'art et d'un artiste. Voici un panorama d'une scène de l'art mondial sur laquelle les valeurs sont en pleine mutation

The Social World of Galleries

Alain Quemin, 2024-10-17 This book presents the first detailed study of the place of contemporary art galleries and gallerists especially within the art markets of Europe and the United States. Based on the author's field research carried out for over a decade and combining ethnographic material with quantitative data, the book reveals the major role galleries play in the creation of art value. Despite being pillars of the art market, there has been very little in-depth research on galleries especially when compared with the analysis of artists, critics and dealers. Written by a sociologist who has spent a decade as an art critic, the book builds on work conducted by art historian and sociologist Raymonde Moulin from the 1960s to the 1990s. Drawing on ethnographic observations and interviews with those working in the field today, it provides a thorough and up-to-date analysis of what contemporary art galleries really are: the spaces they occupy both physically and online, their position within gallery districts, their relation to art fairs and biennials, and how friendship with clients is built and trends within the business in turn illuminating the hierarchized structure of the sector. The book concludes by addressing a significant gap in data on the art market by providing a sociological ranking of international contemporary art galleries. Offering a detailed analysis to a topic that has never been fully studied, *The Social World of Galleries* is essential reading for scholars and students of art sociology, art history and art business, as well as gallerists, collectors, or art lovers and artists themselves.

Canvases Olav Velthuis, Stefano Baia Curioni, 2015-03-12 Since the late 1990s, contemporary art markets have emerged rapidly outside of Europe and the United States. China is the world's second largest art market. In countries as diverse as Brazil, Turkey and India, modern and contemporary art has been recognized as a source of status or a potential investment tool among the new middle classes. At art auctions in the US, London and Hong Kong, new buyers from emerging economies have driven up prices to record levels. The result of these changes has been an increase in complexity, interconnectedness, stratification and differentiation of contemporary art markets. Our understanding of them is still in its early stages and empirical research in the field of globalization of high arts is still scarce. This book brings together recent multidisciplinary cutting-edge research on the globalization of art markets. Focusing on different regions including China, Russia, India and Japan, as well as different institutions and organizations, the chapters in this volume study the extent to which art markets indeed become global. They show the various barriers to and the effects of globalization on the art market's organizational dynamics and the everyday narratives of people working within the art industry. In doing so, they recognize the coexistence of

various ecologies of contemporary art exchange and sketch the presence of resilient local networks of actors and organizations Some chapters show Europe and the US continue to dominate especially when taking art market rankings and the most powerful events such as Art Basel into account However other chapters argue that things such as art fairs are truly global events and that the architecture of the art market which has originally been developed in Europe and the US from the 19th century onwards is increasingly adopted across the world

Histoire de l'art , 2007

La médiation de l'art contemporain Sylvie Lacerte, 2007 L auteur examine dans cet ouvrage comment l acc s l art mais surtout l acc s au sens de l art fut d s les d buts de l histoire des expositions empreint

d'une aura de mystère et de secret. Sa démarche s'inscrit dans un parcours historique amorcé depuis les cabinets de curiosités de la Renaissance jusqu'aux musées réseaux virtuels et événements internationaux jusqu'à l'art contemporain en passant par la création du musée public des Lumières. La notion de médiation est envisagée ici à travers la lunette de ses différentes acceptions pour l'appliquer au domaine de l'art contemporain. Son but est de jeter les bases d'une relation prégnante entre l'art contemporain et les divers publics mais aussi pour voir comment cette relation pourrait s'articuler en gardant l'œuvre au centre de cette action. Des exemples de médiation de l'art contemporain puisés à partir d'études de cas permettent d'illustrer l'analyse de l'auteur.

L'industrie du livre en France et au Canada Frédéric Dorel, Christine Evain, 2008-06-01 Face à une industrie du livre en crise, voici un questionnement pour tous ceux qui s'intéressent au domaine de l'édition. Comment répondre à la concentration de l'industrie du livre ? Quel avenir pour les petites maisons d'édition, les petites librairies ? Quel avenir pour le livre lui-même ? Quel rôle de médiateur et promoteur pour l'État ?
