1. Shall I compare thee to a summer's day?
2. Thou art more lovely and more temperate: **Quatrain**
3. Rough winds do shake the darling buds of May,
4. And summer's lease hath all too short a date:
5. Sometime too hot the eye of heaven shines,
6. And often is his gold complexion dimm'd; **Quatrain**
7. And every fair from fair sometime declines,
8. By chance or nature's changing course untrimm'd;
9. But thy eternal summer shall not fade
- 10 Nor lose possession of that fair thou owest; **Quatrain**
- 11 Nor shall Death brag thou wander'st in his shade,
- 12 When in eternal lines to time thou growest:
- 13 So long as men can breathe or eyes can see,
- 14 So long lives this and this gives life to thee. **couplet**

THE FUGITIVE SHAKESPEARE AND SONNET 144 The discovery of a 16th century manuscript version of Shakespeare's Sonnet 144 is the most important historical and literary find ever made relating to Shakespearean studies The date of composition of this manuscript indicates ca 1577-78 when William Shakspeare the original spelling of his family name was aged between 13-14 which would suggest that he couldn't have written this Sonnet because he was too young The story behind this discovery and how the document was found is as astonishing as how the document has managed to survive for over 400 years The connection in this story between Shakespeare and the famous playwright Ben Jonson is also explored as it was Jonson who provided the most important evidence that Shakespeare was the author of the First Folio which was published in 1623 At last after more than four hundred years there is a glimmer of light at the end of the tunnel a significant Shakespearean clue has been discovered which may help to solve the Shakespeare authorship question Sir Derek Jacobi award winning Shakespearean actor     Encyclopedia of the Novel Paul Schellinger, 2014-04-08 The Encyclopedia of the Novel is the first reference book that focuses on the development of the novel throughout the world Entries on individual writers assess the place of that writer within the development of the novel form explaining why and in exactly what ways that writer is important Similarly an entry on an individual novel discusses the importance of that novel not only from analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre A wide range of topic entries explore the history criticism theory production dissemination and reception of the novel A very important component of the Encyclopedia of the Novel is its long surveys of development of the novel in various regions of the world     The Examiner ,1865     **T.P.'s Weekly** ,1904     *The Complete Works of Sir Walter Scott* Sir Walter Scott, 1833     **The Illustrated London News** ,1877     **The Listener** ,1971     The Manchester Iris ,1822     Edinburgh Magazine ,1801     *The Independent* ,1878     **Clio Medica : Acta Academiae Internationalis Historiae Medicinae, Vol. 13** ,2020-01-29 As periodical of the International Academy of the History of Medicine this Clio Medica volume contains 15 papers     **The Literary World** ,1893     John Brunner Jad Smith, 2013-01-30 Under his own name and numerous pseudonyms John Brunner 1934-1995 was one of the most prolific and influential science fiction authors of the late twentieth century During his exemplary career the British author wrote with a stamina matched by only a few other great science fiction writers and with a literary quality of even fewer importing modernist techniques into his novels and stories and probing every major theme of his generation robotics racism drugs space exploration technological warfare and ecology In this first intensive review of Brunner's life and works Jad Smith carefully demonstrates how Brunner's much neglected early fiction laid the foundation for his classic *Stand on Zanzibar* and other major works such as *The Jagged Orbit* *The Sheep Look*

Up and The Shockwave Rider Making extensive use of Brunner's letters, columns, speeches and interviews published in fanzines, Smith approaches Brunner in the context of markets and trends that affected many writers of the time, including Brunner's uneasy association with the New Wave of science fiction in the 1960s and 70s. This landmark study shows how Brunner's attempts to cross-fertilize the American pulp tradition with British scientific romance complicated the distinctions between genre and mainstream fiction and between hard and soft science fiction and helped carve out space for emerging modes such as cyberpunk, slipstream and biopunk.
