

Pas facile de comprendre comment cette petite ville perdue au milieu des montagnes est devenue le nombril du monde.

D'abord, Jérusalem est presque dépourvue d'eau potable... Jusqu'au milieu du 20<sup>e</sup> siècle, ce sera une vraie contrainte pour son développement.

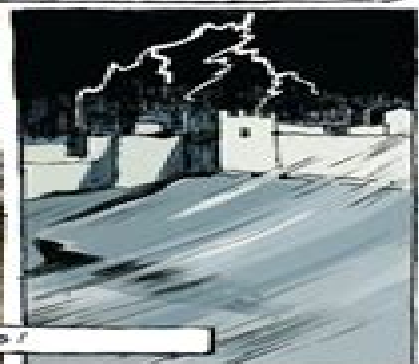

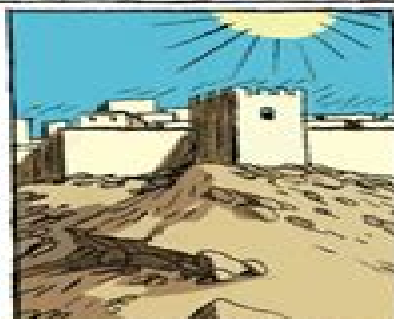

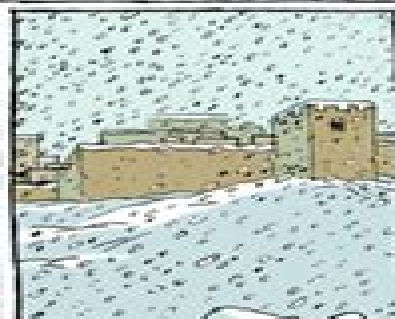

Il y a bien une maigre source, le Gihon, qui coule au pied du mont des Oliviers... C'est autour de ce point d'eau que les premières populations sédentaires se sont installées il y a environ 4 000 ans, à l'époque où je suis né.

J'ai vu alors apparaître les premières sépultures, sur le versant oriental de la vallée du Cédron... et cela n'a jamais cessé depuis.

Je suis bien placé pour savoir que le climat de Jérusalem est particulièrement rude. Pas une goutte de pluie pendant six mois de l'année, entre avril et octobre... Des hivers rigoureux, des tempêtes de neige, des étés suffoquants, des nuits froides, des orages, du vent...

Dans la Ville sainte, le ciel se rappelle souvent au bon souvenir des hommes !

Map Division, 1909 **The Social History of Rome (Routledge Revivals)** Dr Geza Alföldy, 2014-10-14 This study first published in German in 1975 addresses the need for a comprehensive account of Roman social history in a single volume. Specifically, Alföldy attempts to answer three questions: What is the meaning of Roman social history? What is entailed in Roman social history? How is it to be conceived as history? Alföldy's approach brings social structure much closer to political development, following the changes in social institutions in parallel with the broader political milieu. He deals with specific problems in seven periods: Archaic Rome, the Republic, down to the Second Punic War, the structural change of the second century BC, the end of the Republic, the Early Empire, the crisis of the third century AD, and the Late Empire. Excellent bibliographical notes specify the most important works on each subject, making it useful to the graduate student and scholar as well as to the advanced and well-informed undergraduate.

*Women in Frankish Society* is a careful and thorough study of women and their roles in the Merovingian and Carolingian periods of the Middle Ages. During the 5th through 9th centuries, Frankish society transformed from a relatively primitive tribal structure to a more complex hierarchical organization. Suzanne Fonay Wemple sets out to understand the forces at work in expanding and limiting women's sphere of activity and influence during this time. Her goal is to explain the gap between the ideals and laws on one hand and

the social reality on the other What effect did the administrative structures and social stratification in Merovingian society have on equality between the sexes Did the emergence of the nuclear family and enforcement of monogamy in the Carolingian era enhance or erode the power and status of women Wemple examines a wealth of primary sources such deeds testaments formulae genealogy ecclesiastical and secular court records letters treatises and poems in order to reveal the enduring German Roman and Christian cultural legacies in the Carolingian Empire She attends to women in secular life and matters of law economy marriage and inheritance as well as chronicling the changes to women s experiences in religious life from the waning influence of women in the Frankish church to the rise of female asceticism and monasticism **Melanges offerts a m.
