light of the practices and ideas of a wildly different and highly respected model Acutely focusing on If Martin Holbraad takes
the reader inside consultations initiations and lively public debates to show how If practitioners see truth as something to be
not so much represented as transformed Bringing his findings to bear on the discipline of anthropology itself he recasts the
very idea of truth as a matter not only of epistemological divergence but also of ontological difference the question of truth
he argues is not simply about how things may appear differently to people but also about the different ways of imagining
