Directorate of History and Heritage,1997 Canadian military history and military matters have not been well represented in general in retrospective bibliographies of Canadian or in international military bibliographies What has been attempted in this document is a bibliography of published primary sources and secondary works on Canadian military topics excluding poetry and fiction covering the period from Confederation to the present Entries in the bibliography represent printed monographs books and pamphlets and serial titles The prime criteria of inclusion were that the work be chiefly or uniquely both Canadian and military in its contents Many in house publications of the training pamphlet or regulations type have been included but only insofar as they tell us something of the armed forces themselves rather than details of tactical doctrine or of pieces of equipment Works by or about Canadians serving with the armed forces of other countries have been included as well as materials relating to the military history of Newfoundland since 1867

The story of the inspiration for establishment and evolution of the National Memorial Arboretum is a fascinating one. Sited at Alrewas Staffordshire the Arboretum has become the Nations all year round focus for remembering and paying tribute to all who have served their country in both peace and war not only in the armed forces and merchant navy but in the emergency services as well. Planting began in 1997 and was supported by hundreds of organizations both serving and retired. Among the early memorials was a life size wooded polar bear for 49th Division a grove of Irish trees for the Royal Irish Regiment an Avenue of Chestnuts for the Police and a Chapel of Peace and Forgiveness to mark the coming of the Millennium. Britains war widows had a rose garden planted for them while the Far East Prisoners of War managed to fund a small museum to stand alongside a length of railway track brought back from the notorious Burma Railway. In October 2007 H M the Queen confirmed the importance of the site when she opened the Armed Forces Memorial to commemorate all service personnel lost on active service since the end of the Second World War. This is especially poignant given the ongoing conflicts in Iraq and Afghanistan. The importance of the National Memorial Arboretum is well demonstrated by the growing number of stands and the steady increase in visitor numbers.

**Beyond Combat** Tristan Moss, Tom Richardson, 2018-07-01 War is only a small part of military life. Uniformed men and women spend the vast majority of their time away from combat training receiving medical attention burying the dead and undertaking the myriad tasks of survival in an operational zone. Beyond Combat explores how the military manages its other roles as well as the experiences of the servicemen and women themselves. With contributions from Christina Twomey Noah Riseman Shirleene Robinson and Major Clare O'Neill among others Beyond Combat is a ground breaking examination of life beyond the frontline.

Carl Spadoni and Judith Donnelly have included all manner of books in this compilation fiction poetry drama biography history and other non fiction as well as textbooks at all levels. A good portion of the company's books in the pre World War II period were imported from the United States and England the compilers have therefore listed not only Canadian books but also works by non Canadian writers in Canadian issues.

**Warplane** Hal Sundt, 2023-10-03 The A 10 is the Air Force's unlikely success story an airplane designed

to support the Army and one that ground troops came to venerate Originally conceived with the express purpose of destroying Soviet tanks the Air Force only developed it to keep funding away from the Army's response to the mission the AH 56 Cheyenne helicopter Inspired by the biography of a tank busting German pilot in World War II the engineering and design of the A 10 fell to Pierre Sprey a precocious civilian who'd enrolled at Yale when he was just 15 years old and now barely 30 was exiled to a Pentagon backwater with little if any supervision The end result was one of the finest military aircraft ever built a plane essentially constructed around a 19 5 foot 4 000 pound cannon that fired 30mm depleted uranium bullets at a blistering rate Looking like it was built from discarded airplane parts it was probably the ugliest combat aircraft ever built thus the Warthog appellation But it was also an incredibly reliable ground attack aircraft beloved by ground troops from Iraq to Afghanistan Despite repeated attempts to replace it with stealth aircraft and drones over 280 A 10s remain in service today serviced by dedicated and imaginative engineers and maintainers and defended by a fervent cohort of advocates descended from the Military Reform movement This is the story of intra service rivalries Pentagon obsessions with speed and stealth over tactical simplicity and an aircraft that shows no sign of obsolescence as it nears fifty years in service
