 ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP
 and selected open access locations All over the world economic inclusion has risen to the top of the development discourse A
 well performing education system is central to achieving inclusive development but the challenge of improving educational
 outcomes has proven to be unexpectedly difficult Access to education has increased but quality remains low with weaknesses
 in governance comprising an important part of the explanation The Politics and Governance of Basic Education explores the
 balance between hierarchical and horizontal institutional arrangements for the public provision of basic education Using the
 vivid example of South Africa a country that had ambitious goals at the outset of its transition from apartheid to democracy it
 explores how the interaction of politics and institutions affects educational outcomes By examining lessons learned from how
 South Africa failed to achieve many of its goals it constructs an innovative alternative strategy for making process combining
 practical steps to achieve incremental gains to re orient the system towards learning **Yearbook of International
