## Mathlinks 9 Chapter 8:

Excel for Teachers Colleen Conmy, Bill Hazlett, Bill Jelen, Adrienne Soucy, 2006-01-01 Addressing a classroom teacher's need to simultaneously manage a classroom full of students, meet state mandated assessment standards for students and track students' performance against a rubric, this overview of Excel shows how to put its features to use immediately in a classroom. Tracking attendance, grades and books in the school library, creating reports to share with parents at parent teacher conference time and teaching basic charting concepts in a mathematics class are among the possible uses of Excel covered in this guide.

Today's Mathematics, Activities and Instructional Ideas James W. Heddens, William R. Speer, 2000-08-31 This classic allows readers to easily build a valuable set of ideas and reference materials for actual classroom use. Designed to aid the teacher in understanding mathematical concepts and relationships, the authors reflect recent recommendations from the National Council of Teachers of Mathematics Standards 2000.
