Maths Literacy Paper 2 June 2012 Grade 12

JR Anderson

Maths Literacy Paper 2 June 2012 Grade 12:

The Armed Forces Covenant in action? Great Britain: Parliament: House of Commons: Defence Committee, 2013-07-18 A series of Ofsted inspections on Army Apprenticeships conducted in 2013 rated the overall effectiveness as good This was an improvement over the last inspection in 2009 rated as satisfactory now called requires improvement Some 28 per cent of Army recruits were less than 18 years of age Further information is needed on why the Army is so dependent on recruiting personnel under the age of 18 years compared to the other two Services and whether steps are being taken to reduce this dependency Of those recruited in 2012 35 per cent of the Army were rated at entry level 2 for literacy that of a 7 to 8 year old and 39 per cent had a literacy level of an eleven year old If as the MoD states it has to recruit personnel at whatever level of attainment is available then it should boost remedial action when recruitment entry standards are particularly low In light of changes brought about by Future Force 2020 it may be that recruiting personnel with higher levels of attainment would better meet the future needs of the Armed Forces Whilst the Committee recognises that some recruits may not be eager to take further academic exams the MoD should encourage more recruits to undertake English and Maths GCSEs which would stand them in good stead for future employment The MoD has carried out some useful pilot projects with paramedic training and should identify more potential projects to ensure that vital skills paid for by the MoD are not lost to the country

Assessing Mathematical Literacy Kaye Stacey, Ross Turner, 2014-11-03 This book describes the design development delivery and impact of the mathematics assessment for the OECD Programme for International Student Assessment PISA First the origins of PISA's concept of mathematical literacy are discussed highlighting the underlying themes of mathematics as preparation for life after school and mathematical modelling of the real world and clarifying PISA's position within this part of the mathematics education territory The PISA mathematics framework is introduced as a significant milestone in the development and dissemination of these ideas The underlying mathematical competencies on which mathematical literacy so strongly depends are described along with a scheme to use them in item creation and analysis The development and implementation of the PISA survey and the consequences for the outcomes are thoroughly discussed Different kinds of items for both paper based and computer based PISA surveys are exemplified by many publicly released items along with details of scoring The novel survey of the opportunity students have had to learn the mathematics promoted through PISA is explained The book concludes by surveying international impact It presents viewpoints of mathematics educators on how PISA and its constituent ideas and methods have influenced teaching and learning practices curriculum arrangements assessment practices and the educational debate more generally in fourteen countries

Instructional Practices with and without Empirical Validity Bryan G. Cook, Melody Tankersley, Timothy J. Landrum, 2016-07-06 It is important for Stakeholders to be aware of both practices supported as effective as well as ineffective for students with learning and behavioral disabilities in order to provide instruction that results in improved learner outcomes in critical areas of education

Better Serving

Teens through School Library-Public Library Collaborations Cherie P. Pandora, Stacey Hayman, 2013-08-15 In this practical guidebook experienced librarians a public librarian and a school librarian share advice and ideas for extending resources containing costs and leveraging capabilities between school and public libraries offering insights and strategies to overcome today's economic challenges The current economic crisis has had a drastic impact on both public and school libraries As budgets shrink resources become scarcer and the job of the librarian becomes harder The conundrum of doing more with less challenges even the most seasoned professionals whose institutions face service cutbacks disappointed patrons and possible job eliminations or closures This book asserts that a collaboration between school and public libraries can effectively serve the needs of two populations teens and the community at large while minimizing the cost to do so Better Serving Teens through School Library Public Library Collaborations offers thought provoking advice and ideas for practical use in real world libraries The authors provide step by step guidance for those who wish to start strengthen or extend a partnership with colleagues at a sister library covering topics ranging from teen advisory boards and collaborative programs to homework help and professional development Veterans in the field as well as beginners can utilize the wealth of tools within including worksheets timelines and checklists to leverage the capabilities of other agencies to fortify both their own and their institutions value
